ORDINANCE NO. _____

UNCODIFIED ORDINANCE TO ADOPT THE MENDOCINO COUNTY SHERIFF'S OFFICE MILITARY EQUIPMENT USE POLICY PURSUANT TO AB 481

WHEREAS, Governor Gavin Newsom signed AB 481 into law on September 30, 2021; and

WHEREAS, the legislative intent behind AB 481 is to increase the public transparency by which California law enforcement agencies fund, acquire, and/or use military equipment, as defined under AB 481; and

WHEREAS, AB 481 requires California law enforcement agencies to obtain approval of their applicable governing body, by adoption of a miliary equipment use policy, prior to taking certain actions relating to the funding, acquisition, and/or use of military equipment; and

WHEREAS, AB 481 requires California law enforcement agencies that receive approval for a military equipment use policy to submit to the applicable governing body an annual military equipment report for each type of military equipment approved by the governing body within one year of approval, and annually thereafter so long as the military equipment is available for use; and

WHEREAS, AB 481 requires the applicable governing body of the California law enforcement agency to annually review the military equipment use policy and vote on whether to renew the ordinance at a regular meeting.

NOW THEREFORE, the Board of Supervisors of the County of Mendocino ordains as follows:

Section 1.

(A) The attached policy, titled "Military Equipment", shall be added to the Mendocino County Sheriff's Office Policy Manual as "Military Equipment Use Policy" and designated as section 709 under Chapter 7 of the Mendocino County Sheriff's Office Policy Manual.

(B) This ordinance shall supersede and replace Mendocino County Ordinance No. 4511.

PASSED AND ADOPTED by the Board of Supervisors of the County of Mendocino, State of California, on this _____ day of _____, 2023, by the following roll call vote:

AYES:
NOES:
ABSENT:

WHEREUPON, the Chair declared the Ordinance passed and adopted

and **SO ORDERED**.

Military Equipment

709.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for the approval, acquisition, and reporting requirements of military equipment (Government Code § 7070; Government Code § 7071; Government Code § 7072).

709.1.1 DEFINITIONS

Definitions related to this policy include (Government Code § 7070):

Governing body – The elected or appointed body that oversees the Department.

Military equipment – Includes but is not limited to the following:

- Unmanned, remotely piloted, powered aerial or ground vehicles.
- Mine-resistant ambush-protected (MRAP) vehicles or armored personnel carriers.
- High mobility multipurpose wheeled vehicles (HMMWV), two-and-one-half-ton trucks, five-ton trucks, or wheeled vehicles that have a breaching or entry apparatus attached.
- Tracked armored vehicles that provide ballistic protection to their occupants.
- Command and control vehicles that are either built or modified to facilitate the operational control and direction of public safety units.
- Weaponized aircraft, vessels, or vehicles of any kind.
- Battering rams, slugs, and breaching apparatuses that are explosive in nature. This does not include a handheld, one-person ram.
- Firearms and ammunition of .50 caliber or greater, excluding standard-issue shotguns and standard-issue shotgun ammunition.
- Specialized firearms and ammunition of less than .50 caliber, including firearms and accessories identified as assault weapons in Penal Code § 30510 and Penal Code § 30515, with the exception of standard-issue firearms.
- Any firearm or firearm accessory that is designed to launch explosive projectiles.
- Noise-flash diversionary devices and explosive breaching tools.
- Munitions containing tear gas or OC, excluding standard, service-issued handheld pepper spray.
- TASER® Shockwave, microwave weapons, water cannons, and long-range acoustic devices (LRADs).
- Kinetic energy weapons and munitions.
- Any other equipment as determined by a governing body or a state agency to require additional oversight.

Type – Means each item that shares the same manufacturer model number.

709.2 POLICY

It is the policy of the Mendocino County Sheriff's Office that members of this office comply with the provisions of Government Code § 7071 with respect to military equipment.

709.3 MILITARY EQUIPMENT COORDINATOR

The Sheriff should designate a member of this office to act as the military equipment coordinator. The responsibilities of the military equipment coordinator include but are not limited to:

(a) Identifying office equipment that qualifies as military equipment in the current possession of the Department, or the equipment the Department intends to acquire that requires approval by the governing body.

(b) Conducting an inventory of all military equipment at least annually.

(c) Collaborating with any allied agency that may use military equipment within the jurisdiction of Mendocino County Sheriff's Office (Government Code § 7071).

(d) Preparing the annual military equipment report for submission to the Sheriff and ensuring that the report is made available on the office website (Government Code § 7072).

709.4 APPROVAL

The Sheriff or the authorized designee shall obtain approval from the governing body by way of an ordinance adopting the military equipment policy. As part of the approval process, the Sheriff or the authorized designee shall ensure the proposed military equipment policy is submitted to the governing body and is available on the office website at least 30 days prior to any public hearing concerning the military equipment at issue (Government Code § 7071). The military equipment policy must be approved by the governing body prior to engaging in any of the following (Government Code § 7071):

(a) Requesting military equipment made available pursuant to 10 USC § 2576a.

(b) Seeking funds for military equipment, including but not limited to applying for a grant, soliciting or accepting private, local, state, or federal funds, in-kind donations, or other donations or transfers.

(c) Acquiring military equipment either permanently or temporarily, including by borrowing or leasing.

(d) Collaborating with another law enforcement agency in the deployment or other use of military equipment within the jurisdiction of this office.

(e) Using any new or existing military equipment for a purpose, in a manner, or by a person not previously approved by the governing body.

(f) Soliciting or responding to a proposal for, or entering into an agreement with, any other person or entity to seek funds for, apply to receive, acquire, use, or collaborate in the use of military equipment.

(g) Acquiring military equipment through any means not provided above.

Copyright Lexipol, LLC 2022/12/22, All Rights Reserved.
Published with permission by Mendocino County Sheriff's Office

709.5 COORDINATION WITH OTHER JURISDICTIONS

Military equipment should not be used by any other law enforcement agency or member in this jurisdiction unless the military equipment is approved for use in accordance with this policy.

709.6 ANNUAL REPORT

Upon approval of a military equipment policy, the Sheriff or the authorized designee should submit a military equipment report to the governing body for each type of military equipment approved within one year of approval, and annually thereafter for as long as the military equipment is available for use (Government Code § 7072).

The Sheriff or the authorized designee should also make each annual military equipment report publicly available on the office website for as long as the military equipment is available for use. The report shall include the following information required by Government Code § 7072 for the preceding calendar year for each type of military equipment in office inventory.

(a) A summary of how the military equipment was used and the purpose of its use.

(b) A summary of any complaints or concerns received concerning the military equipment.

(c) The results of any internal audits, any information about violations of the military equipment use policy, and any actions taken in response.

(d) The total annual cost for each type of military equipment, including acquisition, personnel, training, transportation, maintenance, storage, upgrade, and other ongoing costs, and from what source funds will be provided for the military equipment in the calendar year following submission of the annual military equipment report.

(e) The quantity possessed for each type of military equipment.

(f) If the law enforcement agency intends to acquire additional military equipment in the next year, the quantity sought for each type of military equipment.

709.7 COMMUNITY ENGAGEMENT

Within 30 days of submitting and publicly releasing the annual report, the Department shall hold at least one well-publicized and conveniently located community engagement meeting, at which the Department should discuss the report and respond to public questions regarding the funding, acquisition, or use of military equipment.

Upon approval of a military equipment policy the Department will have a procedure established for a person to register a complaint or concern, or submit a question about the use of a type of military equipment, including how the Department will respond in a timely manner.

709.8 COMPLIANCE

The Professional Standards Bureau should conduct an annual internal audit for compliance with this policy and prepare and submit a written report to the Sheriff or designee of the results. Any violations will be referred to the Administrative Services Lieutenant and handled in accordance with policy section 1020.

709.9 SUPPLY LEVELS

When stocks of expendable military equipment types have been exhausted or fall below minimum stock levels, the Department may order that amount necessary to replenish and maintain minimum stock necessary to support availability and Department needs during the calendar year without governing board approval.

709.10 MILITARY EQUIPMENT INVENTORY

The following constitutes a list of qualifying equipment for the Department:

Mendocino County Sheriff's Office

Annual Military Equipment Report

The following ***Annual Military Equipment Report*** contains information for the preceding calendar year on each type of military equipment in office inventory as required per Government Code § 7072. The report includes how each type of military equipment was used and the purpose of its use; a summary of any complaints or concerns received concerning the military equipment; the results of any internal audits; any information about violations of the military equipment use policy and any actions taken in response; the total annual cost for each type of military equipment, including acquisition, personnel, training, transportation, maintenance, storage, upgrade, and other ongoing costs, and from what source funds will be provided for the military equipment in the calendar year following submission of the annual military equipment report; the quantity possessed for each type of military equipment; and the quantity sought for each type of military equipment if the Mendocino County Sheriff's Office intends to acquire additional military equipment in the next year.

Manufacturer	Model	Type
Lewis Machine & Tool (LMS)	40LMTS	40mm Launcher

Equipment Description

A single-shot break-open frame launcher with a rifled barrel, double action trigger, trigger lock push button and hammer lock safeties, 40mm, rifled 14-inch barrel.

Equipment Capabilities

This weapon system is capable of delivering 40mm projectiles at great accuracy.

Purpose of Equipment

This system is used to deliver kinetic energy projectiles in order to control subjects who are violent or who demonstrate the intent to be violent and when used properly are less likely to result in death or serious physical injury and can be used in an attempt to de-escalate a potentially deadly situation.

Authorized Equipment Use

Assigned Sheriff's Office members may deploy this weapon system in any circumstance where the member can articulate a reasonable expectation that the weapon system may be needed.

Legal and Procedural Rules Governing Use

Mendocino County Sheriff's Office Policies 300 and 308.

Training Requirements

Members must complete agency approved training and meet qualification requirements prior to deployment and use.

Manufacturer	Model	Type
ALS	ALST460 Tactical Blast Strip	Distraction Device Munition

Equipment Description

ALS model ALST460 Tactical Blast Strip is a single use non-bursting explosive remote tactical stun munition containing 26 grams of flash powder that is 3" X 11" in size that is initiated with a 15' electric match and requires an electric initiator.

Equipment Capabilities

Produces approximately 170 dB at 5 feet, and emits 6-10 million candela. In addition to the light and sound, the ALST460 produces a significant pressure wave that adds to the disorienting physiological effects.

Purpose of Equipment

Used to temporarily distract or disorient non-compliant subjects who are violent or who demonstrate the intent to be violent and can be used in an attempt to de-escalate a potentially deadly situation.

Authorized Equipment Use

Members assigned to the Mendocino County Special Weapons and Tactics Team are authorized to deploy and use this munition in any circumstance where the member can articulate a reasonable expectation that the munition may be needed to distract and/or disorientate a potentially violent or dangerous subject.

Legal and Procedural Rules Governing Use

Manufacturer Product Information

Manufacturer	Model	Type
Defense Technology	2260	Ferret Liquid OC 40mm Round

Equipment Description

The Ferret® 40mm Round is a frangible projectile filled with oleoresin capsicum, a chemical agent that is non-burning and suitable for indoor use. It is designed to deliver the chemical agent in barricade situations from a 40mm launcher. Spin stabilization from barrel rifling affords maximum stand-off distance and accuracy for safety.

Equipment Capabilities

Designed to penetrate barriers, such as windows, hollow core doors, wallboard and thin plywood. Upon impacting the barrier, the nose cone ruptures and instantaneously delivers a small chemical payload inside of a structure or vehicle.

Purpose of Equipment

Primarily used to dislodge barricaded subjects from very small confined areas. Its purpose is to minimize the risks to all parties through pain compliance, temporary discomfort and/or incapacitation of non-compliant subjects who are violent or who demonstrate the intent to be violent and can be used in an attempt to de-escalate a potentially deadly situation.

Authorized Equipment Use

Members assigned to the Mendocino County Special Weapons and Tactics Team are authorized to deploy and use this munition upon authorization of the Shift Supervisor, Incident Commander or Crisis Response Unit (SWAT) Commander, and only after evaluating all conditions known at the time and determining that such force reasonably appears justified and necessary.

Legal and Procedural Rules Governing Use

Mendocino County Sheriff's Office Policies 300 and 308.

Equipment Description

The 40mm Skat Shell® incorporates an aluminum shell and utilizes black powder as the propellant. The 40mm Skat Shell® contains four (4) separate sub-munitions filled with ortho-chlorobenzalmalononitrile that function individually once the round is discharged from a 40mm launcher down range to the intended target zone.

Equipment Capabilities

Designed for outdoor use and has fire producing capability. This round may be fired in the air at an angle of approximately 25 - 30 degrees to achieve maximum stand-off distance, or it may be skip fired into the target area from lesser distances. The small scattering effect and the rapid burning of the sub-munition canisters provide a wide area of coverage and minimizes the throwback potential.

Purpose of Equipment

May be used for crowd control or crowd dispersal.

Authorized Equipment Use

Members assigned to the Mendocino County Special Weapons and Tactics Team are authorized to deploy and use this munition upon authorization of the Shift Supervisor, Incident Commander or Crisis Response Unit (SWAT) Commander, and only after evaluating all conditions known at the time and determining that such force reasonably appears justified and necessary.

Legal and Procedural Rules Governing Use

Mendocino County Sheriff's Office Policies 300 and 308.

Training Requirements

Members must complete agency approved training and meet qualification requirements prior to deployment and use.

Manufacturer Product Information

Manufacturer	Model	Type
Defense Technologies	6320	40mm Direct Impact OC Round

Equipment Description

The 40mm Direct Impact® OC munition is a point-of-aim, point-of-impact direct-fire foam round loaded with oleoresin capsicum powder, which combines blunt trauma with the effects of an irritant powder, maximizing the potential for incapacitation. The 40mm Direct Impact® OC munition is fired from a 40mm launcher.

Equipment Capabilities

This munition is most effective for incapacitation within its optimal energy range of approximately 5 – 40 meters, although it may used in situations from 2 – 50 meters. The optimal zone offers the necessary energy and accuracy to target the large muscle groups of a person and when used properly are less likely to result in death or serious physical injury.

Purpose of Equipment

To minimize the risks to all parties through pain compliance, temporary discomfort and/or incapacitation of non-compliant subjects who are violent or who demonstrate the intent to be violent and can be used in an attempt to de-escalate a potentially deadly situation.

Authorized Equipment Use

Members assigned to the Mendocino County Special Weapons and Tactics Team are authorized to deploy and use this munition in any circumstance where the member can articulate a reasonable expectation that the munition may be needed to disorientate a potentially violent or dangerous subject.

Legal and Procedural Rules Governing Use

Mendocino County Sheriff's Office Policies 300 and 308.

Training Requirements

Members must complete agency approved training and meet qualification requirements prior to deployment and use.

Manufacturer Product Information

Manufacturer	Model	Type
Defense Technology	6325	40mm Direct Impact Sponge Round

Equipment Description

The eXact iMpact™ 40 mm Sponge Round is a point-of-aim, point-of-impact direct-fire round fired from a 40mm launcher. This lightweight, high-speed projectile consisting of a plastic body and sponge nose that is spin stabilized via the incorporated rifling collar and the 40 mm launcher's rifled barrel. The round utilizes smokeless powder as the propellant, and, therefore, have velocities that are extremely consistent.

Equipment Capabilities

This munition is most effective for incapacitation within its optimal energy range of approximately 5 – 40 meters, although it may used in situations from 1.5 – 50 meters. The optimal zone offers the necessary energy and accuracy to target the large muscle groups of a person and when used properly are less likely to result in death or serious physical injury.

Purpose of Equipment

This munition may be used to control non-compliant subjects who are violent or who demonstrate the intent to be violent and can be used in an attempt to de-escalate a potentially deadly situation.

Authorized Equipment Use

Members assigned to the Mendocino County Special Weapons and Tactics Team are authorized to deploy and use this munition in any circumstance where the member can articulate a reasonable expectation that the munition may be needed to disorientate a potentially violent or dangerous subject.

Legal and Procedural Rules Governing Use

Mendocino County Sheriff's Office Policies 300 and 308.

Training Requirements

Members must complete agency approved training and meet qualification requirements prior to deployment and use.

Manufacturer Product Information

Manufacturer	Model	Type
Defense Technology	8901	Distraction Device Munition

Equipment Description

The 12-Gram Distraction Device® reload is a non-bursting explosive that utilizes an M201A1 type fuze that is designed for use with the Distraction Device re-loadable steel body.

Equipment Capabilities

Produces 174.5 dB at 5 feet, and emits 6-8 million candela. In addition to the light and sound, produces a significant pressure wave that adds to the disorienting physiological effects.

Purpose of Equipment

Used to temporarily distract or disorient non-compliant subjects who are violent or who demonstrate the intent to be violent and can be used in an attempt to de-escalate a potentially deadly situation.

Authorized Equipment Use

Members assigned to the Mendocino County Special Weapons and Tactics Team are authorized to deploy and use this munition in any circumstance where the member can articulate a reasonable expectation that the munition may be needed to disorientate a potentially violent or dangerous subject or vicious animal.

Legal and Procedural Rules Governing Use

Manufacturer Product Information

Manufacturer	Model	Type
DJI	Matirice 200 Series	Unmanned Aerial System (UAS)

Equipment Description

The Matirice 200 series is a medium platform remote controlled aircraft (unmanned aerial system) built to be easily transported, stored, and prepared for flight and outfitted with a powerful aerial imaging system designed for gathering information through imaging and recording.

Equipment Capabilities

Capable of sustaining directed flight up to 1-mile, during daylight and darkness, whether preprogrammed or remotely controlled. The Matirice is capable of flight and gathering imagery information through outfitted vision enhancement technology that includes a 30x zoom and thermal camera.

Purpose of Equipment

Data collection.

Authorized Equipment Use

Unmanned aerial systems may be utilized to enhance the office's mission of protecting lives and property when other means and resources are not available or are less effective.

Legal and Procedural Rules Governing Use

Any use of a UAS will be in strict accordance with constitutional and privacy rights, Federal Aviation Administration (FAA) regulations (MCSO Policy 613).

Training Requirements

Operators must complete training and meet certification prior to deployment and use (MCSO Policy Section 613).

Equipment Description

A marksman, gas impingement, magazine fed, semi-automatic rifle chambered in .308 Winchester and configured with a 18-inch barrel.

Equipment Capabilities

This is a mid range discriminatory precision weapon system capable of delivering rounds at greater accuracy and longer distance than a pistol/standard issue patrol rifle.

Purpose of Equipment

This is an agency approved weapon system utilized by the Multi-Agency Special Weapons And Tactics Sniper Team. Provides the operator the ability to deliver precision shots in order to incapacitate an immediate threat who will inflict or is inflicting great bodily injury or death to another person(s).

Authorized Equipment Use

Assigned Sheriff's Office members may deploy the weapon system in any circumstance where the member can articulate a reasonable expectation that the rifle may be needed.

Legal and Procedural Rules Governing Use

Authorized deployment and use of the this weapon system must be within the guidelines established in Mendocino County Sheriff's Office Policy 300 and 312.

Training Requirements

Members must have successfully completed a California POST certified course that satisfies the legislative training mandate to possess and use short barreled rifles specified in section 33220(b) of the California Penal Code and which meets the POST Commission training requirement specified in POST Commission Regulation 1081, and successfully pass agency approved firearms training and qualification.

Manufacturer Product Information

Manufacturer	Model	Type
LRAD Corperation	LRAD-100X	Long Range Acoustic Device

Equipment Description

The LRAD is a high intensity directional acoustical array for long range, clear speech hailing and notification including a warning/alert tone. It is a type of Acoustic Hailing Device (AHD) that provides communication and warning functions over longer distances and in a much clearer format than traditional public address systems mounted to most patrol vehicles.

Equipment Capabilities

Delivers focused, intelligible, directional broadcasts for targeted communication up to 600 meters with an operational range up to 250 meters over 88dB of background noise. Delivers clearly heard and understood communications into buildings and vehicles. Provides safe communication beyond standoff distances during crisis situations.

Purpose of Equipment

The purpose of the LRAD is to communicate clear direction to individuals, groups, and victims/bystanders at critical incidents. The Mendocino County Sheriff's Office will not use the LRAD warning alert system for crowd dispersal or control, as opposed to voice commands, during organized protest events with the exception of individuals engaged in felonious behavior.

Authorized Equipment Use

It is the policy of the Mendocino Couty Sheriff's Office to deploy and use the LRAD to maximize the safety of all individuals involved in an incident. The LRAD may be deployed only in events where there is a need to notify the public in large scale evacuations (i.e. Fire, Tsunami, Flood events) or convey information to large crowds, for hailing in events such as emergency Search and Rescue (SAR) operations or during crisis negotiations during critical incidents.

Legal and Procedural Rules Governing Use

The LRAD will only be deployed and used under the guidelines established under Mendocino County Sheriff's Office Policy 707.

Training Requirements

Operators of the LRAD device must complete agency approved LRAD training prior to deployment or use (MCSO Policy 707).

Manufacturer Product Information

Manufacturer	Model	Type
Masterpiece Arms	700	Rifle

Equipment Description

A marksman, bolt action, magazine fed rifle chambered in .308 Winchester and configured with a 22-inch barrel.

Equipment Capabilities

This is a mid range discriminatory precision weapon system capable of delivering rounds at greater accuracy and longer distance than a pistol/standard issue patrol rifle.

Purpose of Equipment

This is an agency approved weapon system utilized by the Multi-Agency Special Weapons And Tactics Sniper Team. Provides the operator the ability to deliver precision shots in order to incapacitate an immediate threat who will inflict or is inflicting great bodily injury or death to another person(s).

Authorized Equipment Use

Assigned Sheriff's Office members may deploy the weapon system in any circumstance where the member can articulate a reasonable expectation that the rifle may be needed.

Legal and Procedural Rules Governing Use

Authorized deployment and use of the this weapon system must be within the guidelines established in Mendocino County Sheriff's Office Policy 300 and 312.

Training Requirements

Members must have successfully completed agency approved firearms training and qualification and completed a POST approved course on long rifle marksmanship.

Manufacturer Product Information

Manufacturer	Model	Type
Maxim Defense	MDX-505-PDX	Short Barrel Rifle

Equipment Description

The Maxim Defense MDX is an entry level lightweight, gas impingement, air cooled, magazine fed, selectable fire, shoulder fired weapon with a collapsible stock chambered in 5.56 NATO and configured with a 5.5-inch barrel.

Equipment Capabilities

The Maxim Defense MDX is a compact precision weapon system that can be deployed during covert operations, protection details, or other assignments where compact weapon systems would mitigate known or perceived safety hazards and is capable of delivering rounds at greater accuracy and longer distance than a pistol.

Purpose of Equipment

Provides the operator the ability to deliver precision shots in order to incapacitate an immediate threat who will inflict or is inflicting great bodily injury or death to another person(s).

Authorized Equipment Use

Members assigned to the Mendocino County Special Weapons and Tactics Team are authorized to deploy and use this weapon system in any circumstance where the member can articulate a reasonable expectation that the rifle may be needed.

Legal and Procedural Rules Governing Use

Mendocino County Sheriff's Office Policies 300 and 312.

Training Requirements

Members must have successfully completed a California POST certified course that satisfies the legislative training mandate to possess and use short barreled rifles specified in section 33220(b) of the California Penal Code and which meets the POST Commission training requirement specified in POST Commission Regulation 1081, and complete agency approved training and meet qualification requirements prior to deployment and use.

PENN ARMS	GL1-40	40mm Launcher

Equipment Description

A single-shot break-open frame launcher with a rifled barrel, double action trigger, trigger lock push button and hammer lock safeties, 40mm, 1:47 twist-rifled 12-inch barrel.

Equipment Capabilities

The Penn Arms GL1-40 is capable of delivering 40mm projectiles at great accuracy.

Purpose of Equipment

This system is used to deliver kinetic energy projectiles in order to control subjects who are violent or who demonstrate the intent to be violent and when used properly are less likely to result in death or serious physical injury and can be used in an attempt to de-escalate a potentially deadly situation.

Authorized Equipment Use

Assigned Sheriff's Office members may deploy this weapon system in any circumstance where the member can articulate a reasonable expectation that the weapon system may be needed.

Manufacturer Product Information

Manufacturer	Model	Type
Defense Technology	1026	CS Canister

Equipment Description

Consists of three separate canisters pressed together with separating charges between each. When deployed, the canisters separate and land approximately 20 feet apart allowing increased area coverage of a ortho-chlorobenzalmalononitrile payload in a short period of time.

Equipment Capabilities

Designed for outdoor use and has fire producing capability. This is a hand thrown canister with a scattering effect and rapid burning of the sub-munition canisters that provide a wide area of coverage and minimizes the throwback potential.

Purpose of Equipment

May be used for crowd control or crowd dispersal.

Authorized Equipment Use

Members assigned to the Mendocino County Special Weapons and Tactics Team are authorized to deploy and use this munition upon authorization of the Shift Supervisor, Incident Commander or Crisis Response Unit (SWAT) Commander, and only after evaluating all conditions known at the time and determining that such force reasonably appears justified and necessary.

Legal and Procedural Rules Governing Use

Mendocino County Sheriff's Office Policies 300 and 308.

Manufacturer	Model	Type
Defense Technology	56854	40mm Aerosol OC Fogger

Equipment Description

An operator controlled instantaneous initiated aerosol canister with a payload of oleoresin capsicum. It is a non-pyrotechnic that is not a fire hazard and requires minimal decontamination.

Equipment Capabilities

It is designed for use in tactical indoor operations when a non-pyrotechnic instantaneous delivery system is desired. It is most effective when used in confined areas or deployed close to the target.

Purpose of Equipment

The purpose of the Aerosol Grenade Fogger is to minimize the risks to all parties through pain compliance, temporary discomfort and/or incapacitation of potentially violent or dangerous subjects.

Authorized Equipment Use

Members assigned to the Mendocino County Special Weapons and Tactics Team are authorized to deploy and use this munition upon authorization of the Shift Supervisor, Incident Commander or Crisis Response Unit (SWAT) Commander, and only after evaluating all conditions known at the time and determining that such force reasonably appears justified and necessary.

Manufacturer	Model	Type
Brinc	Lemur S	Unmanned Aerial System (UAS)

Equipment Description

The Lemur S is a medium platform remote controlled aircraft (unmanned aerial system) built to be easily transported, stored, and prepared for flight and outfitted with an aerial imaging system designed for gathering information through imaging and recording and two-way communication. It has the ability to be outfitted with certain accessories based on mission specific needs to include but not limited to a glass breaker, general purpose payload dropper, and door pusher.

Equipment Capabilities

Capable of sustaining directed flight for up to 31-minutes during day or night, indoors and outdoors, and remotely controlled. Capable of flight and gathering imagery information through outfitted vision enhancement technology that is a no zoom camera. Capable of two-way communication.

Purpose of Equipment

Data collection and communication.

Authorized Equipment Use

Unmanned aerial systems may be utilized to enhance the office's mission of protecting lives and property when other means and resources are not available or are less effective.

Legal and Procedural Rules Governing Use

Any use of a UAS will be in strict accordance with constitutional and privacy rights, Federal Aviation Administration (FAA) regulations (MCSO Policy 613).

Training Requirements

Operators must complete training and meet certification prior to deployment and use (MCSO Policy Section 613).

Military Equipment Inventory/Acquisition Request Form

☑ **Request for Acquisition of Equipment** ☐ **Equipment Available for Use/Possessed**

Manufacturer Product Information

Manufacturer	Model	Type
RA Tools	Hydraulic RatPak	Electric Hydraulic Breaching Tool

Equipment Description

The Hydraulic RatPak™ is a self-contained, multi-purpose forced entry/rescue kit. Four engineered tools are powered by a compact, reliable battery-powered hydraulic pump. The individual tools can be quickly attached onto the hydraulic hose and are immediately ready for use. The system is controlled by a hose mounted control unit.

Equipment Capabilities

Multi-purpose hydraulic entry/rescue kit consists of door pusher, jamb spreader, bolt cutter and low profile spreader. All tools are powered by remote-controlled, battery hydraulic pump.

Purpose of Equipment

Provides a paramount breaching capability that increases operator safety and operational safety during high-risk situations where breaching is required.

Authorized Equipment Use

Sheriff's Office members who have successfully completed agency approved training would be authorized to utilize this equipment in any situation requiring its use.

Legal and Procedural Rules Governing Use

MCSO Policy 300.

Training Requirements

Agency personnel would be required to completed a course of instruction on the operation, use, and deployment of this equipment.
