**Angela Godwin**  
Agricultural Commissioner  
Sealer of Weights and Measures

**KAREN ROSS, SECRETARY**  
**CALIFORNIA DEPARTMENT OF FOOD AND AGRICULTURE**  
**and THE HONORABLE BOARD OF SUPERVISORS OF MENDOCINO COUNTY**

Madeline Cline, 1st District  
Maureen Mulheren, 2nd District  
John Haschak, 3rd District, Chair  
Bernie Norvell, 4th District, Vice-Chair  
Ted Williams, 5th District  
and Darcie Antle, CEO

In accordance with Section 2279 of the California Food and Agricultural Code, I am pleased to submit the long-anticipated 2022 annual crop report for Mendocino County. It is important to note that the values represented in this report reflect the gross value of agricultural commodities grown in Mendocino County and do not consider costs associated with labor, planting, irrigation, distribution, among other production activities.

The total gross agricultural value for all commodities produced in 2022 was \$262,129,000, a 23% increase from the 2021 value of \$200,556,316. Wine grapes remain the leading commodity in 2022, with a value of \$109,012,000, up 29%. Fruits and nuts combined totaled \$127,702,000, a 32% increase, including a 23% increase in Pear production of \$17,676,000 and an Apple production increase of 125% due to corrected production acreage. Nursery production increased by 134% due to increases in recorded acreage to \$4,269,000. Vegetable production increased by 9% to \$1,511,000. Field Crops, which include grains, hay, and pasture, decreased by 53% to \$6,545,000, primarily related to the drought conditions.

Agricultural production, excluding timber, totaled \$148,586,000. Timber was the second leading commodity, with a gross "at mill" value of \$113,181,000, a 28.5% increase over the previous year's total of \$67,128,681. Mendocino County ranked 4th in the State in timber volumes and produced roughly 8.4% of the State's total timber harvest in 2022.

Cattle production decreased significantly in the number of head (42%). Still, the price per unit was stable, even as the ongoing drought reduced forage availability, forcing ranchers to purchase supplemental feed at record-high prices. This prompted selective herd liquidations to curb costs, minimized impacts through rotational grazing, participation in the USDA's Livestock Forage Disaster Program, while preserving breeding stock. Comparative data from the 2017 and 2022 USDA Census Data indicate a roughly 55% decrease.

I wish to express my sincere appreciation to the agricultural industry and the various state and national agencies that furnish the necessary statistical information that makes this report possible. Using a combination of Mendocino County Crop Report Survey results and USDA NASS 2022 Census Survey data, we have made some long-overdue reconciliations/adjustments. I would also like to thank the University of California Cooperative Extension and all the members of my staff, especially Andy Walker, John Dunsford, II, and Cannabis Division staff, Sara McBurney, and Heidi Cremelle, for their hard work, valuable input, and assistance in producing this report.

Respectfully submitted,

Angela J. Godwin, Agricultural Commissioner/Sealer of Weights & Measures

## FOREST PRODUCTS

| TIMBER                      | 2022          | 2021         |
|-----------------------------|---------------|--------------|
| Log Production (board feet) | 128,761,000   | 83,183,000   |
| Total Stumpage Value, net   | \$61,712,000  | \$33,806,835 |
| Total Value at Mill, gross  | \$113,181,000 | \$67,128,681 |

- 1) Calendar year 2022 showed an increase (Approx. 35.4%) in timber harvest volume when compared to 2021.
- 2) The average price for stumpage based on the information provided by the Board of Equalization is approximately **\$479/mbf** for reported timber harvested in Mendocino County.
- 3) Stumpage values were higher - **\$479/mbf** for 2022 compared to \$407/mbf for 2021.
- 4) The combined value of delivered value at the mill includes both stumpage (\$479/mbf) and logging and hauling costs (approx. \$400/mbf) for a total value of \$879/mbf = **\$113,180,919**
- 5) Mendocino County produced approximately 8.4% of the total timber produced in the State in 2022.
- 6) The State's reported total timber harvest volume for 2022 = 1,524,267 mbf. Compared to 2021 (1,701,131 mbf) represents roughly a 10.4% decrease in total state harvest volume.
- 7) Mendocino County ranked 4th in the state in timber volumes for 2022. The top ranking counties in 2022 were Butte, Plumas, Humboldt, Mendocino, Siskiyou, El Dorado, Lassen,
