Subject: WE DO NOT WANT THE HARRIS QUARRY EXPANSION OR NEW ASPHALT PLANT PROJECT FAST-TRACKED!

All Supervisors should DENY the "Original Jurisdiction of Land Use" application, because this is NOT an urgent/special/emergency situation, and so this is neither an appropriate nor necessary use of County Code.

There is NO REASON the project application cannot go through normal project channels. The citizens of Mendocino County deserve to have adequate time to analyze and be included in the decisions about this project that will significantly affect their health and safety, now, and for decades into the future!

Marya Legrand,
Registered, voting, retired, citizen of Mendocino County since 1978.
