

Honorable Supervisors,

As co-owner of Heartrock Inc., dba Heartrock Mountain Farm, I am writing in support of MCA and its memos on agenda items 6a (Phase 1) and 5h (Legislative Platform).

HMF, with an embossed receipt and Provisional licenses, has Cultivation and Nursery operations in Potter Valley, with an increasing annual payroll approaching \$250,000, as well as a similar amount in State and local taxes. Payroll and purchase of operating supplies contribute \$100,000 to \$200,000 to the local retail economy. We cannot afford to continue pursuit of County and Annual State licenses if we cannot continue operations while we do so.

If forced to cease cannabis operations, subsistence farming will be our only option.

Respectfully,
Clifford Morford
Heartrock
