

Subject: Oppose Neighborhood Cannabis Expansion-Item 3b, 1/25/2021

Dear supervisors,

Here we go yet again. Apparently you did not listen to us the last time or perhaps you are ignoring the will of the residents of Mendocino county. I vehemently oppose the unscrupulous changes proposed by BOS Williams and Haschak in item 3B eliminating and reducing the current restrictions on cannabis cultivation within residential neighborhoods.

I live in an opt-out neighborhood. My neighbors overwhelmingly oppose cannabis growing in our area. Since the enforcement of less cannabis growing, our quality of life has greatly improved. We no longer have to suffer from the horrendous stench and we can actually relax knowing criminal elements that are attracted to grow areas will not be attracted to this area.

This issue should never have been introduced. And the unethical, sneaky, diabolical method that it has been introduced just confirm, several BOS can not be trusted to represent the interest of all the residents of Mendocino County. They appear to only represent the interests of cannabis growers. One wonders why.

Please consider, we just want to live comfortably in our homes free from the anxiety, smell and culture that cannabis growing brings.

Sincerely,
Sallie Palmer
