Interests & Experiences

Special Expertise, Experience, or Interest in This Area?

I am currently serving as the General Manager of the Mendocino County Russian River Flood Control & Water Conservation Improvement District and as such, am involved in many aspects of water resiliency issues in the Russian River watershed and beyond. I work closely with Tribal representatives, County staff in various departments, State officials from various divisions, regional water and political leaders, local/regional/state stakeholders, and more. I also serve as the Chair of the Ukiah Valley Basin Groundwater Sustainability Agency Technical Advisory Committee and on the Association of California Water Agencies Region 1 Board. I was recently appointed as the Mendocino County Representative to the Technical Review Committee. I have presented to the State Water Board, California Water Commission, at the CA Water Education Foundation water summit, Association of CA Water Agencies conference and committees, CA Water Network, Mendocino County Farm Bureau, and others on water issues related to climate change. I am familiar with Brown Act Requirements, the operations of public meetings, and writing and reviewing reports. Much of the work I undertake in these roles is directly related to climate change impacts, education, and resiliency. I am prepared to represent the constituents of Mendocino County and report to the Board of Supervisors and County staff if I am chosen to serve on the Climate Action Advisory Committee.
