Subject: Brooktrails 2nd access road

To the Mendocino County Board of Supervisors:

After the recent devastating wildfires, it's imperative that we do everything possible to avoid another deadly disaster. Brooktrails was envisioned and built as a "vacation community", not a township with over 3,000 full time residents. There are confusing and conflicting evacuation plans including unmarked, unpaved roads through private property and multiple locked gates. A second access is not about congestion or saving a few minutes, it's about SAVING LIVES. Please consider this a public safety priority.

Thank you,
Elizabeth Hart
