

Dear Supervisors,

This communication will be much shorter than my comments to item 6B. I also wish, however, to address proposed items 5H, 6A and 4O.

Item 5H:

I support MCA comments pertaining to the County's Legislative Platform.

I believe the County must be more forceful in advocating for small craft cannabis farmers, our most voluminous cannabis businesses in the County and most contributory tax base. I strongly urge inclusion of the need to redefine cannabis as an agricultural activity. After all, GROWING cannabis is the primary cannabis activity in the state too.

I need immediate closure to prepare my various County paperwork. I will be listening tomorrow and speak to this issue if not discussed.

Thanks you for your consideration of this mess!

Sincerely,

Corinne Powell
