

I am writing because I **oppose the renewal of Liz Barney's contract.**

Liz Barney was contracted to work for the county to disseminate information to the public and I do not have confidence that she can do her job objectively. She is not the person who should be in that job, and her contract is up for renewal this week .

Her Parler account is full of racist and dangerous far-right views, including one that calls for Congresswoman Rashida Tlaib of Michigan's assassination. She believes Donald Trump won the election (including California, by the way) and that mask-wearing is a symbol of ANTIFA.

Mask wearing isn't a political statement or choice, it's a matter of Public Health.

Liz has the right to believe what she does, we all do, but when someone works in service of the public, they should be held to a higher standard: employed, contracted, or otherwise.
