

To whom this concerns.

I find it absolutely ridiculous that nail salons are not allowed to open yet. Is there even any kind of date of opening? Let me tell you that I am not concerned about getting my nails done but what I am concerned about is my friends and neighbors losing their businesses. If this goes on much longer we can see business is just shutting down and never coming back. Please consider allowing nail salons to open! By the way nail salons are extremely clean! Thank you, Kirsten Ingram
