CONTRACTOR shall be solely liable for and obligated to pay directly all applicable payroll taxes (including federal and state income taxes) or contributions for unemployment insurance or old age pensions or annuities which are imposed by any governmental entity in connection with the labor used or which are measured by wages, salaries or other remuneration paid to its officers, agents or employees and agrees to indemnify and hold COUNTY harmless from any and all liability which COUNTY may incur because of CONTRACTOR's failure to pay such amounts.

In carrying out the work contemplated herein, CONTRACTOR shall comply with all applicable federal and state workers' compensation and liability laws and regulations with respect to the officers, agents and/or employees conducting and participating in the work; and agrees that such officers, agents, and/or employees will be considered as Independent Contractors and shall not be treated or considered in any way as officers, agents and/or employees of COUNTY.

CONTRACTOR does, by this Agreement, agree to perform his/her said work and functions at all times in strict accordance with all applicable federal, state and COUNTY laws, including but not limited to prevailing wage laws, ordinances, regulations, titles, departmental procedures and currently approved methods and practices in his/her field and that the sole interest of COUNTY is to ensure that said service shall be performed and rendered in a competent, efficient, timely and satisfactory manner and in accordance with the standards required by the COUNTY agency concerned.

Notwithstanding the foregoing, if the COUNTY determines that pursuant to state and federal law CONTRACTOR is an employee for purposes of income tax withholding, COUNTY may upon two (2) week's written notice to CONTRACTOR, withhold from payments to CONTRACTOR hereunder federal and state income taxes and pay said sums to the federal and state governments.

2. **INDEMNIFICATION:** To the furthest extent permitted by law (including without limitation California Civil Code sections 2782 and 2782.8, if applicable), CONTRACTOR shall assume the defense of, indemnify, and hold harmless the COUNTY, its officers, agents, and employees, from and against any and all claims, demands, damages, costs, liabilities, and losses whatsoever alleged to be occurring or resulting in connection with the CONTRACTOR'S performance or its obligations under this AGREEMENT, unless arising out of the sole negligence or willful misconduct of COUNTY. "CONTRACTOR'S performance" includes CONTRACTOR'S action or inaction and the action or inaction of CONTRACTOR'S officers, employees, agents and subcontractors.
3. **INSURANCE AND BOND:** CONTRACTOR shall at all times during the term of the Agreement with the COUNTY maintain in force those insurance policies and bonds as designated in the attached Exhibit C, and will comply with all those requirements as stated therein.

CONTRACTOR shall furnish to COUNTY certificate(s) of insurance evidencing Worker's Compensation Insurance coverage to cover its employees, and CONTRACTOR shall require all subcontractors similarly to provide Workers' Compensation Insurance as required by the Labor Code of the State of California for all of subcontractors' employees.

In the event that any third party asserts a claim of infringement against the COUNTY relating to a CONTRACTOR PRODUCT, CONTRACTOR shall indemnify and defend the COUNTY pursuant to Paragraph 2 of this AGREEMENT.

In the case of any such claim of infringement, CONTRACTOR shall either, at its option, (1) procure for COUNTY the right to continue using the CONTRACTOR Products; or (2) replace or modify the CONTRACTOR Products so that that they become non-infringing, but equivalent in functionality and performance.

33. ELECTRONIC COPIES: The parties agree that an electronic copy, including facsimile copy, email, or scanned copy of the executed Agreement, shall be deemed, and shall have the same legal force and effect as, an original document.
34. COOPERATION WITH COUNTY: CONTRACTOR shall cooperate with COUNTY and COUNTY staff in the performance of all work hereunder.

CONTRACTOR hereby agrees to provide all services under this Agreement in accordance with generally accepted professional practices and standards of care, as well as the

I. INTRODUCTION

The purpose of the Mendocino County Strategic Plan to Address Homelessness (“Plan”) is to share with the community a common agenda and plan of action to make homelessness RARE, BRIEF, and only ONE TIME. The Plan was developed by the Strategic Planning Committee of the Mendocino County Homeless Services Homeless Continuum of Care (MCHSCoC), a collaborative of over 31 public agencies and private non-profit organizations throughout the County that serve the unsheltered population. The Plan was reviewed by the MCHSCoC governing board and formally adopted on April 27, 2020. The following jurisdictions have also adopted this Plan: XXX, XXX, XXX.

This Plan also fulfills Federal and State requirements that local jurisdictions receiving funding from the U.S Department of Housing and Urban Development (HUD) have a community plan for addressing homelessness. Mendocino County’s CoC is the U.S Department of Housing and Urban Development (HUD) designated Homeless Continuum of Care for Mendocino County, with the County providing project monitoring and fiduciary oversight.¹

This Plan is also seeks seeking to address the fragmentation that currently exists in the system, which diminishes the effectiveness of homelessness-related funding, service delivery, and system performance. The Plan recognizes that transforming our County’s homeless service system will also require close collaboration with community members and key stakeholders, elected officials, agency staff, service and housing providers, and people with lived experience of homelessness. Thus, the Plan includes two additional goals related to strengthening collaboration both between the CoC and the broader community and within the CoC governing body itself.

¹ HUD requires that each Homeless Continuum of Care develop a plan that coordinates implementation of a housing and service system, conducts a Point-in-Time count of homeless persons, analyzes needs and provides strategies to address gaps in housing and services, provides information required to complete the Consolidated Plan(s), and plans for and evaluates performance of Emergency Solutions Grant (ESG) recipients. <https://www.hudexchange.info/coc/coc-program-law-regulations-and-notice/>

II. HOMELESSNESS IN MENDOCINO COUNTY

Mendocino County covers 3,506 square miles of mostly mountainous terrain, making it the 15th largest among California's 58 counties—almost equal in geographic size to the states of Delaware and Rhode Island combined. The population of Mendocino County is 89,009.² Ukiah, the County Seat of Government, is the largest city in the County, with a population of 16,296. Fort Bragg, the primary population center on the coast, has a population of 7,478. Approximately 15% of Mendocino County residents reside in one of the County's four federally-designated Frontier Communities, which are communities with a population density of 6 or fewer people/square mile. Mendocino County's population is 66% White, 24% Hispanic, 6% Native American, and 4% bi-racial or other ethnicities and includes 10 Native American Indian Rancherias. However, the ethnic profiles of Mendocino County's public schools—where, on average, 43% of students are Hispanic and 44% are White—illustrates the changing demographics of the County.

Mendocino County's scenic beauty contrasts sharply with a depressed economy and associated high levels of poverty. The median household income in Mendocino County is \$46,528, just 69% of the statewide median of \$67,169, and 16% of families live below the federal poverty level, compared to 11% of families Statewide (American Community Survey, February 2019 update). And, like the rest of California, Mendocino County has a shortage of rental units affordable and available to those most vulnerable to losing their housing—e.g., households with extremely low-incomes, which are those at or below the poverty guideline or 30% of their area median income. Many of these households are severely cost burdened, spending more than half of their income on housing. They are thus more likely than other renters to experience unstable housing situations like evictions. Not surprisingly, areas of high poverty and a high share of rentals are associated with higher rates of homelessness. Right now in California there are 22 units available and affordable for every 100 households with extremely low incomes (NY Times 1/14/2020).

While a number of factors heighten the risk of homelessness, **poverty, leading to the inability to pay for housing, is the single greatest risk factor for homelessness.**³ These factors include being African American, a member of an immigrant community, a new mother, Native American, LGBTI, having a history of incarceration, mental health or substance use problems, adverse childhood experiences, social isolation, experiencing interpersonal violence, low wage work, chronic health problems, a prior history of homelessness, and spending >50% household income on rent. The association between poverty and homelessness holds true in Mendocino County where, according to the Homelessness Needs Assessment and Action Steps for Mendocino County prepared in March 2018 by Dr. Robert Marbut ("Homeless Assessment"),

² California Department of Finance estimates for January 2019.

the majority of the County's homeless (61%) were living in Mendocino County, a high-poverty county, when they became homeless.

Nationally, the demographics of homelessness are changing as the baby boomer generation ages. Whereas in the early 1990s, 11% of single adults experiencing homelessness were aged 50 and over, by 2003, this rate had increased to 37%. Currently, approximately half of single adults who are homeless nationally are aged 50 and older.⁴ In Mendocino County, according to the Homeless Assessment, the median age for individuals experiencing homelessness is 46, which means that half of the homeless in Mendocino County are over 46 years of age—slightly younger median of 50 years of age. Nationally, approximately half of those who are homeless and aged 50 and older had their first ever experience of homelessness after the age of 50. In comparison, the median age an individual starts experiencing street-level homelessness in Mendocino County (or before moving to Mendocino County) is 41 years of age, again younger than the national median. The aging of the unsheltered population has critical policy implications because adults in their 50s and 60s who are homeless experience premature aging, having the health characteristics of people 20 years older.

Counting Mendocino County's Homeless Population

[This explanation of the following point-in-time count is from the website of the National Alliance to End Homelessness (<https://endhomelessness.org/resource/what-is-a-point-in-time-count/>).]

The U.S. Department of Housing and Urban Development (HUD) requires that communities receiving federal funds from the McKinney-Vento Homeless Assistance Grants program conduct a count of all people experiencing homelessness in the last week of January annually. Electronic administrative records are used to enumerate people living on the streets and in emergency shelters and transitional housing. In an unsheltered counting effort, outreach workers and volunteers are organized to canvas Homeless Continuum of Care to enumerate the people who appear to be living in places not meant for human habitation.

During these point-in-time counts, communities are required to identify whether a person is an individual, a member of a family unit, or an unaccompanied youth under the age of 18 or age 18 to 24. In addition, communities must identify if a person is chronically homeless, indicating long-time or repeated homelessness, and the presence of a disability.

Why do we Count?

Point-in-time counts are important because they establish the dimensions of the problem of homelessness and help policymakers and program administrators track progress toward the goal of ending homelessness. The first of these counts was conducted in January 2005. Although the counting methodology has changed several times since then, we nevertheless have data for Mendocino County's CoC for the last 15 years. Collecting data on homelessness

⁴ Margot Kushel, MD., Homelessness in older adults: Causes, consequences, & prevention, September 27, 2018. UCSF Center for Vulnerable Populations.

and tracking progress can inform public opinion, increase public awareness, and attract resources to address the problem.

HUD uses information from the local point-in-time counts, among other data sources, in the congressionally-mandated Annual Homeless Assessment Report to Congress (AHAR). This report is meant to inform Congress about the number of people experiencing homelessness in the U.S. and the effectiveness of HUD's programs and policies in decreasing those numbers.

On the local level, point-in-time counts help communities plan services and programs to appropriately address local needs, measure progress in decreasing homelessness, and identify strengths and gaps in a community's current homelessness assistance system.

The point-in-time counts are not without limitations. There is variation in count methodology year-to-year within and across communities. Unsheltered counts have more limitations than sheltered counts. Thus, there is more variation in the methodology used to arrive at unsheltered counts. Point-in-time counts are, however, the only annual measure that enumerates people experiencing unsheltered homelessness in addition to those who are sheltered. (The U.S. Census strives to include people who are unsheltered in its once per decade census count.) And, despite its flaws, the annual point-in-time counts result in the most reliable estimate of people experiencing homelessness that we have and from which progress can be measured.

Counting Youth

One gap that exists in these point-in-time counts is the coverage of unaccompanied youth (or those living separately from any family members) under the age of 25. Despite the fact that point-in-time counts are required to collect the number of unaccompanied youth under the age of 18, those numbers do not appear accurate, with many CoCs reporting that there are zero unaccompanied youth in their communities. Youth may be afraid or unwilling to enter individual shelters, and communities typically have scarce resources, beds, and units dedicated to youth. Moreover, unaccompanied youth are often not engaged with traditional homelessness assistance programs and congregate in different areas than older individuals experiencing homelessness. This means that, in most communities, the required count of sheltered youth is more likely a count of beds available to youth as opposed to the number of youth who need shelter. Without adequate coverage of homeless youth in point-in-time counts, there is a danger that they will continue to be underserved.

Children and youth living with their parent(s) in vehicles are also difficult to count accurately. For example, the point-in-time count attempts to count families who sleep in vehicles. But many families sleeping in vehicles do not park overnight where there are other people sleeping in vehicles because of safety concerns for children. Thus, many may be missed in the count. However, children and youth who are unsheltered but enrolled in school are counted by Mendocino County Office of Education's Foster and Homeless Youth Services (FHYS) program. The definition of homeless children and youth that FHYS uses is from the McKinney-Vento Homeless Assistance Act, which ensures educational rights and protections for children and

youth experiencing homelessness. Homeless children and youth are those who lack a fixed, regular, and adequate nighttime residence. This definition also includes:

- Children and youth who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason.
- Children who may be living in motels, hotels, trailer parks, shelters, or awaiting foster care placement.
- Children and youth who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings.
- Children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings.
- Migratory children who qualify as homeless because they are children who are living in similar circumstances listed above.

According to FHYS, there were 1,058 children and youth in 2019 in Mendocino County who met the McKinney-Vento definition of homelessness. The highest rate of child and youth homelessness is in Round Valley where 41% of children and youth were homeless in 2019.

Mendocino County's Point in Time Counts

Following are results from Mendocino County's point-in-time counts for the past four years, with the exception of the count of homeless veterans, which includes a column for the point-in-time count from 2011. This table indicates a steep decline in the numbers of unsheltered veterans. This is a result of the Veterans Administration's commitment to applying Housing First principles to caring for homeless veterans.

Another estimate of the homeless population in Mendocino County comes from the Homeless Assessment of 2018. The Homeless Assessment does not claim to provide a definitive count of the homeless population countywide, as the PIT count does. Rather, Dr. Marbut focused his work in and around those cities of Ukiah, Fort Bragg, and Willits because most of the individuals experiencing homelessness in Mendocino County are geographically located within and near those areas.

How Long are People Homeless?

According to the Homeless Assessment, on average, in 2018, 78% of people interviewed had been homeless for one or more years. Of those, just over half (51%) had been homeless 1-5 years, which is strikingly high and worthy of notice because the rate of successful recovery from homelessness starts dropping after one year, and then precipitously drops after two to three years (Marbut, p. 19). When the length of time one is living on the streets is shortened, people are safer and more people can use limited resources.

In terms of how effective homeless systems of care are at getting people into permanent housing situations, HUD measures how quickly people move into permanent housing situations after entering a homeless system of care. This performance measure is called *Length of Time Homeless* and is

measured by calculating the average length of time people remain in emergency shelters (ES) or Safe Havens (SH, though there are none in Mendocino County) before moving on to permanent housing—the blue bar. HUD is also interested in measuring the average length of time people remain in emergency shelters, Safe Havens, and transitional housing before moving on to permanent housing—the orange bar. The HUD “length of time homeless” performance measure does not currently include the amount of time people spend living on the streets prior to entering the homeless system of care, but eventually street-level data will be included.

How Many People Are Getting Housed, and How Many Become Homeless Again?

The adjacent graph, *Exits to Permanent Housing by Program Type*, conveys two distinct pieces of information. First,

the blue bar indicates that, in all years shown, no more than 20% of people who entered the homeless system exited to permanent housing. The data include people who entered into emergency shelters (ES), Safe Havens (SH, none of which exist in Mendocino County), transitional housing (TH), or received rapid re-housing funds.

The orange bar indicates that an average of 90% of those who were in permanent supportive housing (PSH) or other permanent housing (OPH) in each of the years shown retained their housing, a positive demonstration of stability for clients once in permanent housing.

The percentages of people who entered the homeless system of care, exited the homeless system of care, and then re-entered the system again—within six months, 12 months, and 24 months—from 2015 – 2018 are shown in the table below. This is a key measure of how effective Mendocino County’s homeless system of care is at reducing overall homelessness.

III. THE RESOURCES AVAILABLE TO ADDRESS HOMELESSNESS IN MENDOCINO COUNTY

The resources available to address the unsheltered population of Mendocino County include housing and services. But it is important to understand that people access these resources within a **system of care [NAME!]**. All service providers that participate in the system of care have agreed to use a Coordinated Entry System (CES) to facilitate the coordination and management of resources that comprise the crisis response system in the County. The CES allows service providers to efficiently and effectively connect people to interventions that aim to rapidly resolve their housing crisis. And reciprocally, the CES connects the most vulnerable persons in the community to available housing and supportive services equitably. The following graphic depicts how people in Mendocino County who are unsheltered move through Mendocino County’s homeless system Continuum of Care **[NAME!]** and access housing and services.

- Referrals to services

The housing and supportive services available to the unsheltered population of Mendocino County are funded by local fundraising, volunteers, as well as competitive grants and allocations from the State and federal governments. The following table lists the funding that is currently coming into Mendocino County for homeless or homeless-related services.

The table is divided into two main sections. The first section lists grants (allocations and competitive grant awards) awarded to Mendocino County Health and Human Services Agency's (HHSA) three branches—Social Services (yellow), Public Health (blue), and Behavioral Health (green). The second section (beige) lists grants that have been allocated to Mendocino County's Homeless Continuum of Care from the U.S. Department of Housing and Urban Development (HUD) via the County. Funding received by Mendocino County HHSA and the MCHSCoC are allocated by the Boards established to oversee each entity. Prior to federal legislation that passed in 2016, local CoC's did not have the authority to determine how federal funds to serve the homeless are allocated, with the exception of the Emergency Solutions Grant. MCHSCoC is establishing policies and procedures to ensure the integrity and effective of the funding allocation process.

The purpose of this Strategic Plan is to use *all* the funds coming into the County to address homelessness (whether granted to the County, the CoC, or an individual organization or agency) as efficiently and effectively as possible through coordination, cooperation, and agreed-upon goals and strategies.

NOTE: The funding awards listed in the following tables span multiple funding periods. Additionally, some funds come from time-limited grants while others are noncompetitive allocations. Thus, totaling the grant amounts to determine annual countywide funding to address homelessness would be misleading.

IV. GOALS, STRATEGIES, AND ACTION STEPS

The goals, strategies, action steps delineated in this section were derived over the course of approximately four months by the Strategic Planning Committee (STRATEGIC PLANNING COMMITTEE) of the CoC governing board. Many of the recommendations from the Homeless Assessment are included as strategies here. In addition, the STRATEGIC PLANNING COMMITTEE benefitted from technical assistance provided by the Technical Assistance Collaborative through a grant from the Department of Housing and Community Development to improve the delivery of homelessness programs. The STRATEGIC PLANNING COMMITTEE was inspired by the All Home collaborative of Kings County, Washington in deciding on its overarching goals.

Goal 1: Making Homelessness Rare

Making homelessness rare will require addressing the [causes of homelessness](#), which are myriad and institutional. A [2013 national study](#) found that community rates of homelessness are driven by rent increases in the housing market, the availability of a strong safety net, economy, demographics, and influx of people moving to a region. Working together with community advocates, providers and partners the CoC aims to align efforts toward prevention, increasing affordable housing, and supporting the expansion of pre-adjudication programs and sentencing alternatives to make homelessness RARE in Mendocino County.

Goal 1: Make homelessness rare				
#	Strategy	Action Steps	Person/Org. Responsible	Timeframe
1.1	Source new housing opportunities of all types whenever possible.	1.1.1 Identify new funding for development of housing for homeless 1.1.2 Review current housing projects and identify possible areas of expansion 1.1.3 Partner with local housing developers to reserve/fund units for households experiencing homelessness 1.1.4 Collaborate with CA State Agencies to identify state-owned properties available for short-term and long-term housing interventions (CA Governor Executive Order N-23-20—attached)	1.1.1 CoC Board members 1.1.2 Shelter & Solutions Cmte 1.1.3 Applicable agencies 1.1.4 Health and Human Services and Local Jurisdictions	Ongoing

HOW WE WILL KNOW IT WORKED

We will see a 5% annual decrease in the total number of homeless as measured by HUD's Longitudinal Systems Analysis (LSA).

GOAL 2: Making Homelessness Brief and One-Time

To make homelessness brief and one-time, funding and programs must be aligned to support the strengths and address the needs of people experiencing homelessness. Shortening the length of time families and individuals are homeless reduces trauma and also creates capacity in the crisis response system for others in need. Ensuring that those who move to permanent housing do not become homeless again and return to our crisis response system also increases capacity of crisis services to serve more individuals.

Goal 2: Make homelessness brief and one-time				
#	Strategy	Action Steps	Person/Org. Responsible	Timeframe
2.1	Identify the most effective homelessness programs within the County, particularly those that provide emergency, transitional, and permanent housing to individuals experiencing homelessness, and provide support to expand services.	2.1.1 Gather outcomes of annual Housing Inventory Report. 2.1.2 Establish performance measurement goals for all types of projects 2.1.3 Add minimum outcome thresholds to grant rating and ranking criteria (for a project to be eligible for funds) 2.1.4 Create project evaluation processes to hold projects accountable	2.1.1 HHSA 2.1.2 Rating and Ranking Ad Hoc 2.1.3 Rating and Ranking Ad Hoc 2.1.4 CoC Board and STRATEGIC PLANNING COMMITTEE	2022

EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA

EXECUTIVE ORDER N-23-20

WHEREAS California faces a severe housing crisis that has made housing unaffordable for too many Californians and, in turn, exacerbated the problem of homelessness; and

WHEREAS homelessness in California is not confined to urban corridors but is present in urban, suburban, and tribal and rural communities throughout the state; and

WHEREAS data released recently by the U.S. Department of Housing and Urban Development based on the 2019 Point-in-Time Count indicated that there were 151,278 individuals who were homeless in California, over 108,000 of whom were unsheltered, and that the homeless population has been steadily increasing; and

WHEREAS Californians driven into homelessness often develop significant health issues over time and, often experience significant morbidity and die sooner; and

WHEREAS it is estimated that a substantial proportion of individuals who are homeless experience chronic physical and mental health disorders, yet are not receiving regular and consistent medical or psychiatric care; and

WHEREAS California's homelessness crisis has put considerable stress on many public services including transportation, libraries, schools, health services and public safety, as well as created public health challenges; and

WHEREAS California's homelessness crisis has impacted certain business sectors throughout the state and is a top concern to many residents, businesses, communities, tribal governments, cities, and counties across the state; and

WHEREAS unauthorized encampments of people who are homeless are increasing in many areas of the state within the public right of way and near or on private or tribal property, resulting in traffic and fire hazards, crime, risk of injury and death, and other conditions detrimental to public health and safety, both for people who are homeless and people who are not; and

WHEREAS since 2018, almost 200 counties and cities have declared a shelter crisis, pursuant to Government Code section 8698 et seq.; and

WHEREAS over the past two years, the state has substantially increased its efforts to address street homelessness by providing more than \$2.7 billion in new funding, significantly increasing its support for safety net services, eliminating barriers to getting navigation centers and temporary housing built to allow homeless adults to receive services and stability in

order to find longer-term housing, enacting the most aggressive rent-gouging protections, launching a 100-Day Challenge Initiative to bring counties and cities together to more urgently address homelessness in their communities, and expediting funding allocations to local governments, including allocations to counties to reduce the number of families in the child welfare services system experiencing homelessness; and

WHEREAS solutions to homelessness require additional innovation, cooperation and urgency within the public sector, and among the public and private and tribal sectors; and

WHEREAS because reducing the population of homeless individuals in California is a matter of critical statewide importance, the state can and needs to do more to help local communities act with urgency to address street homelessness and the society-wide problems associated with the homelessness crisis.

NOW, THEREFORE, I, GAVIN NEWSOM, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this Order to reduce street homelessness, break down barriers to homeless individuals accessing health care and other critical services, and to increase housing options for those experiencing homelessness. This Order shall become effective immediately.

IT IS HEREBY ORDERED THAT:

1. All state agencies specifically referenced in this Order shall develop by no later than February 28, 2020 accountability metrics for state agencies and for local partners to assess the use of the state resources referenced in the following paragraphs and their impact on reducing street homelessness, breaking down barriers to homeless individuals accessing health care and other critical services, and increasing housing options for those experiencing homelessness. The metrics shall be published online and regularly updated. In carrying out this Order, state agencies shall consider the extent to which local partners regularly and publicly report data based on the local metrics.
2. The Department of Finance, pursuant to its authority under Government Code sections 11005, 11005.1, and 13306, shall immediately establish the California Access to Housing and Services Fund within the Department of Social Services, to receive future state appropriations, as well as donations from philanthropy and the private sector, and to provide much needed dollars for additional affordable housing units, providing rental and operating subsidies, and stabilizing board and care homes;
3. To rapidly increase housing options for those experiencing homelessness, the following actions shall occur by no later than January 31, 2020:

- a. The Department of General Services shall identify all properties from the digitized inventory of excess state land created by EO N-06-19 that can be used by local partners, including tribal governments, counties, cities, or non-profit agencies, on a short-term emergency basis to provide shelter for individuals who are homeless, so long as such usage will not delay affordable housing development on those properties.
 - b. The Department of General Services shall conduct an initial assessment of all state facilities to identify facilities that can be used by local partners on a short-term emergency basis to provide shelter for individuals who are homeless and in need of health and social services.
 - c. The Department of Transportation (Caltrans) shall develop and share a model lease template to allow counties and cities to use Caltrans property adjacent to highways or state roads in those jurisdictions on a short-term emergency basis to provide shelter for individuals who are homeless, building on recent partnerships with the cities of Los Angeles, San Jose, and San Francisco, and consistent with Streets & Highways Code section 104.30. Priority for future partnerships to make state land available to counties and cities for short-term emergency housing shall be given to jurisdictions where a shelter crisis declared pursuant to Government Code section 8698 et seq. is in effect.
 - d. The Office of Statewide Health Planning and Development shall work with local jurisdictions, tribal communities, and private entities to conduct an initial assessment of the appropriateness and availability of vacant and decommissioned hospitals and health care facilities for use by local partners on a short-term emergency basis to provide shelter for individuals who are homeless.
 - e. The Department of Food and Agriculture, in consultation with the Department of General Services, the Department of Housing and Community Development, the Department of Social Services, and the Office of Emergency Services, shall conduct an initial assessment of fairgrounds in or near jurisdictions where a shelter crisis is currently in effect, and, for those fairgrounds, determine the population capacity and space that would currently be available to local partners on a short-term emergency basis to provide shelter for individuals who are homeless.
4. The Department of General Services shall supply 100 travel trailers from the state fleet, and the Emergency Medical Services Authority shall supply complementary modular tent structures, to provide temporary emergency housing and the delivery of health and social services in communities across the state. The Department of General Services and the Emergency Medical Services Authority shall supply trailers and tents immediately and

end by September 30, 2020, unless the secretaries of the Government Operations Agency and the Health and Human Services Agency both concur on a case-by-case basis that the specific circumstances warrant the continued use of the trailers or tent structures. These trailers and tent structures shall only be used where the following criteria have been satisfied:

- a. A shelter crisis declared pursuant to Government Code section 8698 et seq. or its equivalent under the applicable laws governing the jurisdiction of a federally recognized tribe in California is in effect.
 - b. Local partners, including counties, cities, and non-profit agencies, have the capacity and resources to deploy, operate, secure, and maintain the trailers or tent structures.
 - c. Local partners make appropriate health, social, housing, and other appropriate services available to support the needs of individuals temporarily housed in the trailers or tent structures and transition them into permanent, safe and stable housing.
 - d. Local partners agree to regularly and publicly report data based on the accountability metrics referenced in paragraph 1.
5. To further assist local jurisdictions in addressing street homelessness, there shall be a multi-agency state strike team comprised of the Business, Consumer Services, and Housing Agency; the Government Operations Agency; the Health and Human Services Agency; the Labor and Workforce Development Agency; and the Transportation Agency. The strike team shall be coordinated by the Homeless Coordinating and Financing Council and provide technical assistance and targeted direct support to counties, cities, and public transit agencies seeking to bring individuals experiencing homelessness indoors and connect them with appropriate health, human, and social services and benefits.

FURTHERMORE, all counties, cities, public transit agencies, special districts, school districts, tribal governments, and non-governmental actors, including businesses, faith-based organizations, and other non-profit agencies, are requested to examine their own ability to provide shelter and house homeless individuals on a short-term emergency basis and coordinate with local authorities to provide shelter and house individuals.

IT IS FURTHER ORDERED that as soon as hereafter possible, this Order shall be filed with the Office of the Secretary of State and that widespread publicity and notice shall be given to this Order.

This Order is not intended to, and does not, create any rights or benefits, substantive or procedural, enforceable at law or in equity, against the State of California, its departments, agencies, or other entities, its officers or employees, or any other person.
