

3<sup>rd</sup> District Supervisor John Haschak

Ad Hoc work as of June 14, 2022

Housing: I have a placeholder for a BOS agenda item for Aug. 2 to increase housing with Short Term Rental revenues.

Attended 50<sup>th</sup> Anniversary of the Mendocino County Museum. Met with Museum staff and Willits Rotary to get more collaboration and have some meetings at Museum.

Drought Ad hoc – We met with GEI consultants to discuss different options to staffing a “water agency”. The big question is do we want to staff it for the short term (consultant who can be ready to work with state agencies, apply for grants, etc. ) or with a long term view with somebody who has some of the educational requirements, represent MC but might need some experience working with state agencies?

Supervisor McGourty and I met with County Counsel to discuss Ag Pass Program. The proposed program is in alignment with newly passed state law and will come to the BOS on July 12.

CSAC Cannabis Task Force: We had two meetings regarding enforcement and tax issues. The Governor’s proposal is a needed step by eliminating the cultivation tax.

Cannabis Ad Hoc for issues of Portal and Equity Grant: Met with Nicole Elliott, Director of Cannabis Control, to discuss equity and portal issues. She will help to expedite guidance on auditing issues. Ad hoc met with MCD staff and stakeholders to discuss communication, process, and other issues.

Economic Development: Attended the West Business Center’s graduation.
