

Greetings,

I am writing in **support of MCA memo** regarding agenda item 6a. As part of the legacy cultivator community, I wish to see a smooth pathway to annual licensing at the state level, as I am sure the county does as well. SSHR has been a huge hurdle in this pathway as well as a point of great stress for both legacy operators, and the county staff.

I am also in support of the **transferring of application receipts and cultivation expansion available for this upcoming season.**

I truly appreciate the dedication and focus on these cannabis items from the BOS. Thank you for all your hard work. 💎💎

Cheers,
Elexa Richard
