Interests & Experiences

Special Expertise, Experience, or Interest in This Area?

I have experience working in different backgrounds that all have to do with behavioral health and community. I have worked with groups such as law enforcement, disadvantaged youth interested in behavioral health, and various tribal communities, including my own, Round Valley Indian Tribes. As someone who grew up in Mendocino County, I have also been very involved in recreational sports and volunteering as an assistant volleyball coach at Willits High School. I have experienced how different groups of people interact through sports, education, and cultural activities, and how they vary between sub-groups. However, these groups all face similar challenges stemming from our rural location and limited economic influence. With my cultural upbringing and in my current position as a tribal vocational rehabilitation counselor, I am aware of some of the health issues tribal communities face and how the interaction of drugs and alcohol specifically affects our community's mental and physical health. I am interested in being a part of the Public Health Advisory Board because my ultimate goal is to become an LCSW and be able to provide support to my county, this position would allow me to become more familiar with how the public health policies interact with our community and will allow me to provide insight on decisions from a local tribal perspective.
