

Dear John,

With a start date of June 1, Mendocino County has agreed to hire Dr. Joseph Iser as the County's Public Health Officer to replace Dr. Doohan. However, Dr. Iser has had a less than sterling tenure in his position as the chief health officer of the Southern Nevada Health District, which includes Las Vegas . He "retired" from his position there with 2 pending whistle-blower complaints, accusations of fraud and much controversy; including his trying to fire both of the whistle-blowers. He was rarely in his office, spending most of his time in San Francisco where he owns a house.

I cannot understand how the supervisors of Mendocino County could agree to this hiring. Have you done any research yourself or do you just agree to whatever is proposed? I strongly encourage you to google "Dr. Joseph Iser Las Vegas" and read about his tenure there and be sure to watch the video from Channel 8 . [I-Team: Controversial health district leader Dr. Joe Iser sets Jan. 3 retirement date](#) Also, please consider talking to George Knapp at ITV who is an award-winning investigative reporter. [gknapp@8NewsNow.com](mailto:gknapp@8NewsNow.com)

Thank you, Linda Malone

p.s. please forward to the other two supervisors
