

1. The development of a dual licensing system, which requires the verification of a local license as a condition precedent to the issuance of a state license for both medical and adult use commercial cannabis licensees, and the development of a strong license revocation policy and procedure for violations of license requirements.
2. Limitations and/or phase-in of unlimited acreage licenses, or Type Five licenses. (Proposition 64 allows for an unlimited acreage cultivation license - Type 5 - after the law has been in effect for five years).
3. State development of uniform regulations, when feasible, for adult use and medical cannabis.

Section 2: Cultivation and Environmental Impacts

Counties urge:

1. Action to reduce environmental degradation and ensure the responsible use of resources, including water and electricity, in cannabis cultivation.

Counties support:

1. Uniform pesticide and other contaminant standards for adult use and medical cannabis.
2. A statewide track and trace technology system designed with compatibility and full integration with local programs.
3. Local access to both the state track and trace system and laboratory test results for cannabis and cannabis products.
4. Integration with GIS systems at the local level, especially with respect to cultivation sites. This should include integration and consultation with resource conservation districts and enable integration with Integrated Watershed Management Plans.
5. Strong coordination between local and state agencies to ensure uniform application in environmental enforcement efforts. This includes providing clear guidance and adequate resources to responsible agencies to regulate and enforce existing environmental laws when they are applied to the cultivation of cannabis.
6. The ability to grow industrial hemp as an agricultural product, while respecting local control.

Section 3: Enforcement and Public Safety

Counties strongly urge the state to fully enforce all state aspects of cannabis regulations, and to provide resources to local governments for enforcement efforts undertaken by local governments.

Counties support:

1. The development of enforceable standards for impaired driving.
2. Employer rights to maintain competency for duty and a drug-free workplace and the ability to impose restrictions on cannabis use by employees.
3. Action and assistance to aid local government and law enforcement's ability to stop unlicensed commercial activity and diversion of cannabis and cannabis products.
