

Dear Supervisors,

I am writing to express my support for the ordinance to establish a Citizen's Advisory Committee for Law Enforcement Oversight (CACLEO). Law enforcement agencies all over the country are taking steps towards transparency, democratic involvement of the citizenry, and oversight for officers and administration in order to make policing safer and more equitable for community members and officers. Please support Supervisor Williams' ordinance. Vote yes on establishing the CACLEO for the Mendocino County Sheriff's Office. The time is now. Help shape the future of our county. Be part of bringing in the historical change that is upon us. And help make it some of the best news around. We need some good news. Please help make this the community we've always wanted. One with truth, equity and justice for every person.

Thank you, sincerely,
Catherine Hart
