

Hello Board of Supervisors!

If you could please look over MCA's most recent recommendations for your 4/27 meeting.

MCA speaks for many, well intended legacy farmers who care to see our county and community thrive. I support the proposed amendments to the county ordinance.

We appreciate you spending the time it takes to understand the subject of cannabis cultivation, so that you may create a successful & functional ordinance for our communities.

Thank you for your time,

Cheri Adams
