

Carmel Angelo,

I watched the video posted of you asking for help of the community. I hope you are seeing the response. There is much confusion and mistrust. To me it appears that the facts aren't strong enough nor consistent enough for ppl to come together as one. As I see it, the majority do want the county to open back up though. Weather it be by testing or standing up to Gov Newsom. Either way the micro management-pick-n-choose method that Governor Newsom is forcing on us for what is essential or not is just not working for Mendocino co. Ppl are losing patience.

Isn't it fantastic that many people in Mendo Co. WANT to get back to work. They WANT to earn a living and provide for their families. Our county needs these people!! Let's show them some respect and give them a little slack.

I do NOT support asking for more testing, I don't have all the details about it but it seems like a funding issue more than it is about the people.

Let's get back to standing up for the people, the hard working citizens that make our community function.

Sonya.
