

To all the Supervisors,

How can you even consider expanding cannabis cultivation in Mendocino County? Have you ever driven around Little Lake Valley and seen the unsightly hoop houses and smelled the acrid skunk smell??? Have you viewed all of the county from the air. It is gross and disgusting, not to mention a huge waste of very valuable water. Don't let these greedy out of town jerks ruin what used to be a lovely, bucolic place. Don't fall prey to promises of extra money in the coffers (or hopefully in your own pockets). You were elected by citizens who trusted you. Don't let them down!

Norma Hanson
