

*"If you work in a critical infrastructure industry, as defined by the Department of Homeland Security, such as healthcare services and pharmaceutical and food supply, you have a **special responsibility to maintain your normal work schedule.**"*

From CISA

CRITICAL MANUFACTURING

- Workers necessary for the manufacturing of materials and products needed for medical supply chains, **transportation**, energy, communications, food and agriculture, chemical manufacturing, nuclear facilities, the operation of dams, water and wastewater treatment, emergency services, and the defense industrial base.

And

Transportation Equipment Manufacturing

- **Vehicles and Commercial Ships Manufacturing**
- Aerospace Products and Parts Manufacturing
- Locomotives, Railroad and Transit Cars, and Rail Track Equipment Manufacturing

Products made by these manufacturing industries are essential to many other critical infrastructure sectors. The Critical Manufacturing Sector focuses on the identification, assessment, prioritization, and protection of nationally significant manufacturing industries within the sector that may be susceptible to manmade and natural disasters.

DEFENSE INDUSTRIAL BASE

- Workers who support the essential services required to meet national security commitments to the federal government and U.S. Military. These individuals, include but are not limited to, aerospace; mechanical and software engineers, manufacturing/production workers; IT support; security staff; security personnel; intelligence support, aircraft and weapon system mechanics and maintainers
- Personnel working for companies, and their **subcontractors**, who perform under contract to the Department of Defense **providing materials** and services to the Department of Defense, and government-owned/contractor-operated and government-owned/government-operated facilities
