

**County of Mendocino**  
**2016 Edward Byrne Memorial Justice Assistance (BJA) Grant (JAG)**  
**Information Technology Equipment Upgrade**

**Abstract**

**Applicant Name:** County of Mendocino

**Project Title:** Information Technology Equipment Upgrade

**Project Goals:** To identify aged, obsolete or otherwise inadequate technology (e.g. computers, peripherals and software) and replace that equipment with functional equipment that meets current industry standards.

**Strategy and Methodology:** Problematic technology equipment is easily detected by the users of the equipment. Where it is not cost effective to repair a piece of equipment or when the technology of the equipment has been superseded by newer technology, we will replace the equipment. In addition, our IT staff maintains detailed records on the ages and specifications of computers so that equipment with a greater risk of developing problems can be replaced before they fail.

**Project Identifiers:** The following JAG Project Identifiers are associated with the proposed project activities:

1. Computer Software/Hardware
2. Criminal Intelligence Information Systems
3. Data sharing/linkage
4. System Improvements
