Interests & Experiences

Special Expertise, Experience, or Interest in This Area?

I've served as a participant in the neighborhood group Ridge Lane Neighbors (Facebook and website) in the Ingleside district of San Francisco for the past seven years. During that time I became aware that, after supporting my children in San Francisco public schools in a variety of (parent) board groups, participating in local community initiatives is not only important for the wellbeing of that community but also enjoyable. With Ridge Lane Neighbors I helped with meeting organization and participation, community awareness events, construction crew liaison, event organization, and outreach to city organizations and administrations (office of the District Supervisor, Department of Public Works, and our fiscal sponsor, San Francisco Parks Alliance). My combined expertise from education, work, and these volunteer experiences has given me the capacity to work with patience and dedication toward goals that are projected in a sometimes quite distant future. For example, when we set out to find funding and support for our neighborhood mini-park, we did not realize that our project might take a decade to materialize. The fact that it did (and still does), thought me steadfastness and unwavering dedication to that goal, despite setbacks, disappointments, and differences of opinion. Another asset that might serve me in my work with RV MAC is my experience with people from a variety of backgrounds. I was educated at the European School of Brussels and made friends with peers from a variety of European nations. As a result, I speak fluent Dutch and French, good German, and some Italian. The languages taught me the words and the friends I made taught me about the customs and ideas of these various cultures. I also speak some Spanish and it is still my ambition to become more fluent! My deep concern and interest as a future member of RV MAC are to preserve and defend where possible, the beauty and natural integrity Redwood Valley. I would work to defend its ecology and wildlife while supporting the desired, necessary development of our community.
