Re: Support letter of case # UR_2009-0002

Please accept this letter of support for the Dharma Realm Buddhist Association (DRBA) proposed building project under the above referenced case number.

We support the DRBA in their endeavor to provide religious education training in our community bringing many visitors to Mendocino County positively affecting our local economy. The proposed changes which are in question have been thoughtfully planned in order to best protect the environmental impacts of this project. These changes reduce the area of wetlands impacted from 2.32 acres in the original approved plan to .49 in this new proposal.

The Dharma Realm Buddhist Association is an asset to our community and local economy. We respectfully request that this adjustment to the building be approved.

Sincerely,

Willow Anderson
Executive Director
