From: Stuart Marcus
 To the Honorable Mendocino County Board of Supervisors,
 I applied for consideration for the available At Large Seat on the MCTC Board of Directors.
 Since I had some urgent matters this morning, I was not sure if I could make it on time for the interview so I am submitting a written letter, (although I may arrive later today).
 I am experienced and qualified for this position and am sure that I could be an objective, selfless and constructive member of the MCTC Board and you all already know me.
 I originally applied for this position to offer my sincere efforts IF needed by the County. However, I have been friends with John Kuhry and I originally first introduced him to the MCPA board. I attended the last November MCTC Board meeting and spoke with John at that time and again in mid December. At the times when we spoke, John was undecided if he would continue to remain on the MCTC board. I applied to possibly fill this gap, with my experience in Lodging, County Promotion and Cannabis (have been asked to assist on a local trade organization board and I purposely applied for the more independent At Large seat, rather than a future lodging seat).
 My wife and I were away for a month on a cultural exchange program in Cuba and only found out yesterday that John has re-applied for the nomination. I am happy to support John Kuhry in this position and am sure that he can provide consistency and experience. I should only be considered if John is not chosen for some reason.
 Sincerely,
 Stuart Marcus, Shambhala Ranch
