Suggestions

Cottage farming or manufacturing (home/cottage kitchen) *is by definition* a Home/Cottage Business to be performed in or at a person's residence.

If Class K is a residential permit, it should be allowed.

Shipping containers

- Setbacks should be enforced on a complaint based basis.
- Permitting should be allowed using the Class K for cottage.
 - Everybody and their brother has a shipping container on their property.

Cannabis Advisory Group

Perhaps this should be a common sense board that reviews exceptions and appeals also consisting of:

- A representative from Planning Services with authority to grant common sense exceptions.
- A representative from Building with authority to grant common sense exceptions.
- A representative from Environmental Health with authority to grant common sense exceptions.
- A representative from AG. with authority to grant common sense exceptions.
- A representative that holds a Dispensary License as a voting member of the group and consulting expertise.
- A representative that holds a Manufacturing License as a voting member of the group and consulting expertise.
- A representative that holds a Type 1 License as a voting member of the group and consulting expertise.
- A representative that holds a Nursery License as a voting member of the group and consulting expertise.
- A representative from the Board of Supervisors to oversee the actions.

Access to county council to help resolve disputes.
