There will need to be a complete road closure of at least five days. MCDOT is striving for a Monday to Friday closure in order to be open by the weekend. In addition, there will be up to a ten day partial closure while the temporary Bailey Bridge is disassembled. It is anticipated that half of the tieback pile wall can be constructed next to the bridge and backfilled in order to form a single traffic lane. Then the process of deconstruction of the temporary Bailey Bridge can be accomplished off to the side so that a portion of the ten day partial closure can be kept to only midday, with one lane open overnight, and on weekends, to allow for a normal morning and evening commute during the day.

- **Road Closure: Robinson Creek Road, CR 125, at MP 1.52, on Monday March 5th, 2018, between the hours of 8:00 a.m. to 12:30 p.m., and Road Delays from 1:00 p.m. to 5:00 p.m.:** The County's Geotechnical Engineer, in support of storm damage repair design, is doing subsurface drilling and needs to block the road to drill soil log borings. This work requires that MCDOT close the road between the hours of 8:00 a.m. to 12:30 p.m., and then to expect 20 minute delays between 1:00 p.m. to 5:00 p.m. The road will be closed to large trucks all day except between 12:30 and 1:00 p.m. Residents cannot detour, so access restrictions will need advance planning by residents.
