Subject: Inclusionary Housing Ordinance

Dear Supervisors,

The important issue to me is that now that the County is seriously entertaining the **first** large housing development project in the County where the Inclusionary Housing Ordinance can make a difference, you, our elected officials, are considering suspending the IHO to 'accommodate' the so-called 'bottom line' of the developer. This is exactly the wrong response.

Any suspension is irresponsible and opens the County to obvious legal actions. Please put the thought of a suspension of the IHO out of your minds and off your agenda.

Sincerely,

Pinky Kushner
