

MENDOCINO COUNTY
ENVIRONMENTAL HEALTH
LAMP DEVELOPMENT

LOCAL AGENCY
MANAGEMENT PLAN

LAMP SCOPE OF WORK

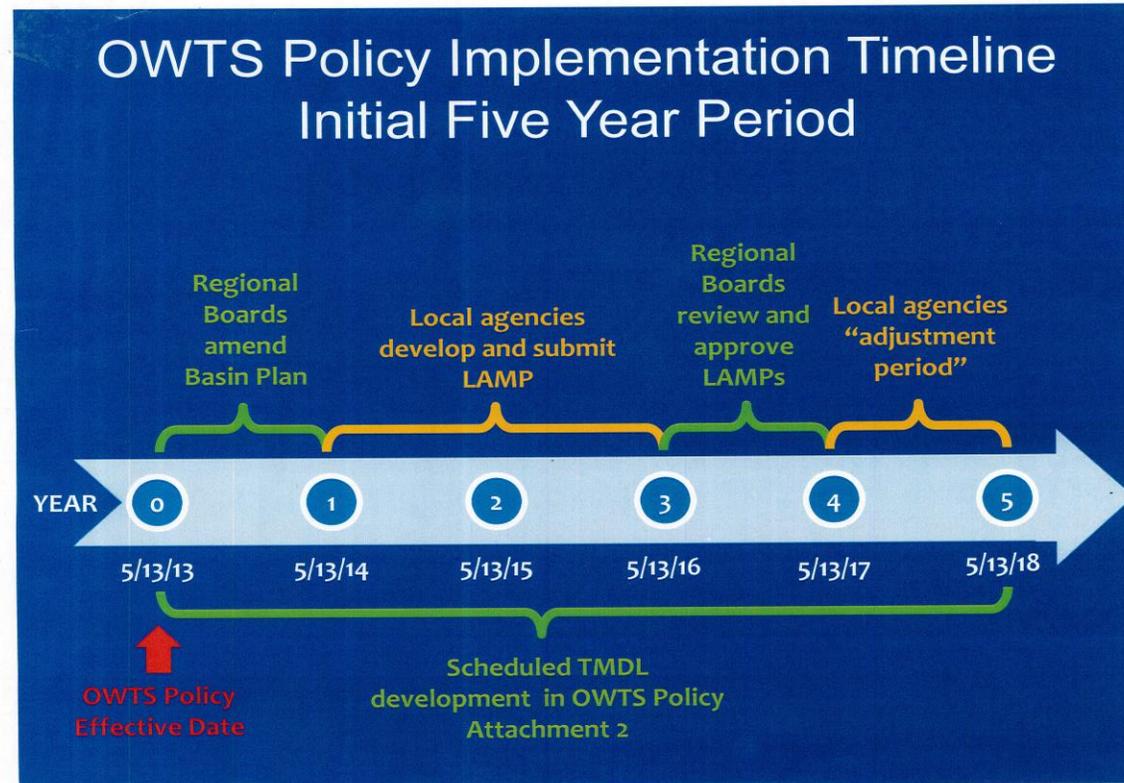

- Mendocino County LAMP speaks specifically to sub-surface wastewater disposal
- The State Water Quality Control Board maintains jurisdiction over all surface application designs
- The County currently has no jurisdiction over:
 - Facilities receiving high strength waste (wineries, dairies, distilleries)
 - Large mobile home parks with onsite sewage disposal
 - Sewage treatment ponds
 - Sewer treatment facilities
 - Wetlands disposal systems
 - Land application of treated sewage sludge

BACKGROUND ON AB 885

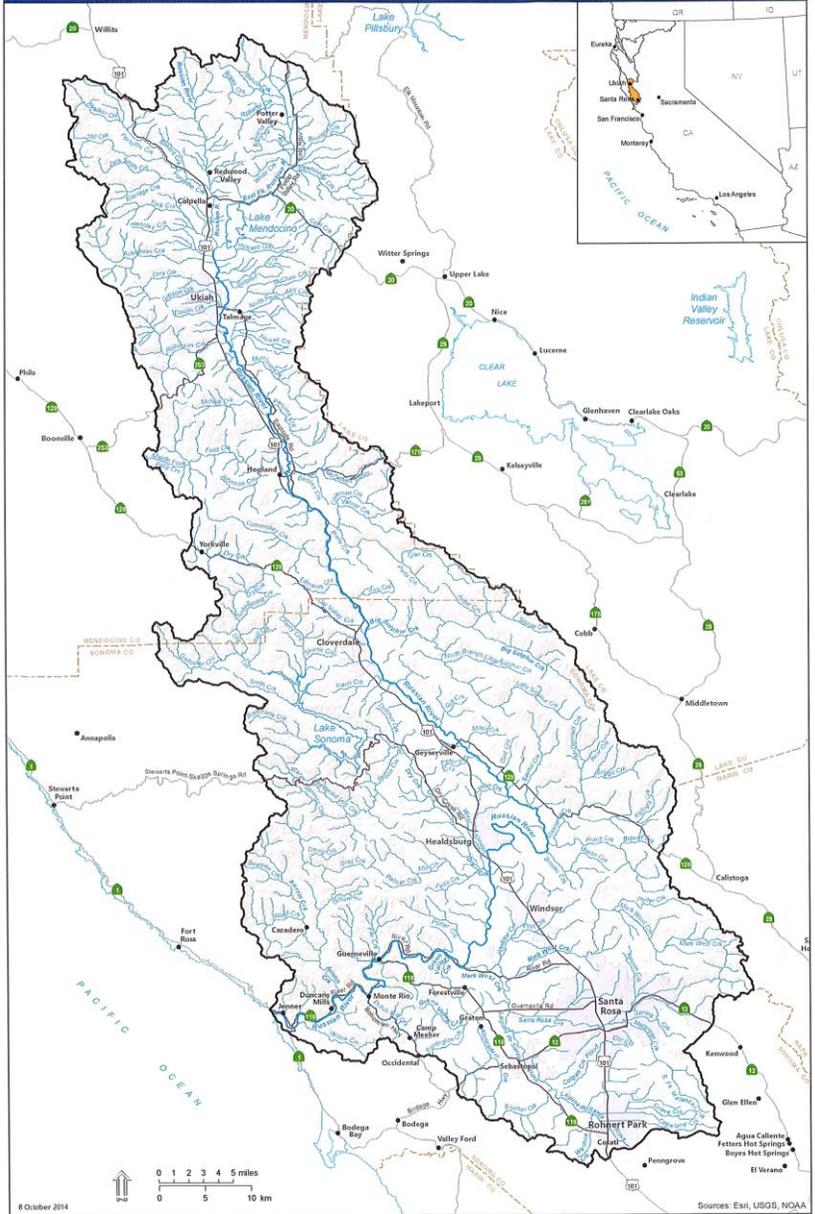

- Tier 0 - All existing systems that are working properly
- Tier 1 - State design criteria for all new systems proposed
- Tier 2 - Mendocino County LAMP alternative design criteria
- Tier 3 - Systems that have failed and must be repaired
- Tier 4 - New or repair systems within impaired waterways
 - In Mendocino County the Russian River watershed has been identified as an impaired waterway
