Re: Support for variance to Sol De Mendocino / Love In It location

Generous, Caring, Welcoming. Community. Knowledgeable

A place where people share information, not just rush in and out.

Over the past few years Sol De Mendocino has become part of my medical team and friends. When I have the energy, this is where I go. The dispensary is the only place, besides doctors, I get out to these days as I have long term chronic illnesses and aging.

I truly believe in the healing power of cannabis and I am happy to support Sol De Mendocino and its moves to be in better compliance to the operating regulations. It is a long serving dispensary providing the careful and knowledgable service our small coastal village community deserves.
