| ANTICIPATED CONSTRUCTION ENGINEERING | <u>\$85,000.00</u> |
| TOTAL ANTICIPATED PROJECT COST: | <u>\$717,544.00</u> |

Working Days: 30

- **Road Closure 2016-2017 Storm Recovery Effort – Orr Springs Road, M.P. 39.20:** Orr Springs Road, M.P. 39.20 (Bailey Bridge) will require a complete road closure of at least five days. The Contractor plans to start the closure on Tuesday, May 22, 2018, and hopes to have limited, one lane service by the weekend. Continued closures into the week of May 29th (after Memorial Day), are possible. MCDOT is striving for a Monday to Friday closure in order to be open by the weekend. In addition, there will be up to a ten day partial closure while the temporary Bailey bridge is disassembled. It is anticipated that half of the tieback pile wall can be constructed next to the bridge and backfilled in order to form a single traffic lane. Then the process of deconstruction of the temporary Bailey Bridge can be accomplished off to the side so that a portion of the ten day partial closure can be kept to only midday, with one lane open overnight, and on weekends, to allow for a normal morning and evening commute during the day. Signs are up and a handbill will be passed out to commuters.
