Subject: Fwd: juveniles

To the Board of Supervisors:

As a former member of Mendocino County's Juvenile Justice Delinquency Prevention Commission, a former Youth Guidance Counselor at both the dependent and delinquent "sides" in Contra Costa County (more than 50 years ago), and a 50 year resident of Mendocino County, it is my belief that shipping juveniles away from our relatively rural county is abrogating our obligation to these people and has negative consequences for both the individuals and for society.
