

To Board of Supervisors;

I read in the U.S. regarding your intent to close Gunville Hall.

I'm very concerned because this will make it extremely difficult and costly to response these children with difficulties to stay connected to their families and community.

The cost savings analysis doesn't hold up in the long run.

This questionable decision reveals a lack of human values being replaced by apparent monetary costs; which as noted in the article could be addressed by thoughtful budgetary management.

Please - don't throw our children on the bus out of town.

Sincerely,
Susan Wertheimer
