RE: Floodplain regulations Sec. 22.17.140 Definitions (H)

We are a Recreational Visitor Serving Facility that is a Mendocino County Registered Historic Site so ordered by the Board of Supervisors in 1993. We are requesting that you either add to Section C a No. (5) Individually listed on a local inventory of historic places or add a without to the clause that begins with historic.

" Individually listed on a local inventory of historic places in communities with **or without** historic preservation programs that have been certified either by an approved state program as determined by the Sec. etc.

Many of our historic buildings are in the floodplain. Thank you, Charles and Sally Grigg
