Dear Supervisors,

I urge you to adopt the Cannabis Cultivation Ordinance as it has been proposed by the Planning Commission.

My wife and I own and reside on property in the formerly proposed Mitchell Creek overlay zone. We are opposed to any overlay zone or combing district in our residential neighborhood.

Since we learned of this proposal, we've met with and gotten to know many of our non-grower neighbors. I am yet to meet one of them who supports this ordinance.

Please adopt the recommendation from the Planning Commission that excludes the Mitchell Creek area from the proposed ordinance.

Thank you,
Ron Hock
