RE: Public Safety Power Shutoff

Dear Ms. Talbott,

I want to thank you and your colleagues from PG&E for updating the Board of Supervisors on July 9, 2019 regarding the Public Safety Power Shutoff (PSPS) program.

There has been discussion that PG&E will be establishing Resource Centers throughout the Mendocino County in the event of a PSPS events that would serve the public. Please note that as of this date the County has not been informed where these facilities will be located, the exact number of Resource Centers to be deployed and an estimated time of deployment once a PSPS event occurs, and exactly what facilities or services will be provided for within these Resource Centers. It would be greatly appreciated if you could provide this information to the County ASAP.

Additionally, it was noted during the Board meeting that PG&E could have the Resource Centers operational within 24 hours. However, it was also noted during the Board meeting that if the County were to deploy a center in 2 to 4 hours, can PG&E accomplish the deployment in 2 to 4 hours?

Thank you for taking the time to appear before the Board of Supervisors and would expect future updates regarding the PSPS events. However, due to the upcoming and continued hot weather, we look forward to an expeditious answer regarding the Resource Centers to be deployed within Mendocino County within the coming days.

Sincerely,

Carre Brown
Chair, Mendocino County Board of Supervisors
