Interests & Experiences

Special Expertise, Experience, or Interest in This Area?

I am a teacher and a parent of two children aged 9 and 10. My education background is in ecology and sustainable agriculture. I have focused in life on finding ways to live more sustainably, and to understand how to create a culture and community that is educated and has the tools to make sustainable choices. In the pursuit of this goal, I have lived in intentional community, built sustainable housing, farmed, taught ecology to children, run projects at school on worm composting and local food lunches, helped organize walk to school days, been a Girl Scout leader, and more. I think that I would be a great addition to the committee with a focus on youth involvement and community education. I also speak fluent Spanish and have a strong connection with the Latino community in Anderson Valley. To successfully address climate change, it is important to work with all the populations of Mendocino County and create ways for people to engage in the process in meaningful ways.
