Interests & Experiences

Special Expertise, Experience, or Interest in This Area?

I am a longterm resident of Mendocino County since around 1960 and a recent victim of climate change with the October 2017 wildfire in Redwood Valley. I understand the urgency of taking action on a personal level as well on all political levels. As an elementary teacher and science mentor for the UUSD I collected and dispersed information on the importance of energy conservation which I feel needs more emphasis to the general public. My son shares my concern for the environment and is an advisor on climate change teaching courses at Stanford on this topic and should be able to link me to relevant resources for the committee's study. note: I don't have a current general resume to upload but recently sent one with my application to serve on the board of the Mendocino County Resource Conservation District.
