

I support Supervisor Williams' recommended action item 6e, which directs Mendocino County Director of Health and Human Services to request aggregate patient outcome data from Redwood Quality Management Company and subcontractors and disseminate with trends analysis, pursuant to the scope of work under the County's various contracts with RQMC.

It is an important step towards measurable performance, a prudent business practice, and an essential first step in strategic planning for these services and expectations under the current contracts.

Without this information, how would the county know if they are getting the services they expect and pay for?

I urge you each to support Supervisor Williams' recommended action.

Thank you,

Judy Valadao

Resident and Taxpayer, Mendocino County 4th District
