

Dear Board of Supervisors,

We are writing a letter of support for the CCAG memo in regards to Agenda Item 5c. We do not support allowing a hemp pilot program in Mendocino County for all the reasons cited in the memo.

Please reconsider your position on this important issue that will impact everyone in our county.

We strongly feel that Supervisors of District 1, 2 and 4's decision on 5c do not align with our community's vision, and we recommend to only allow Hemp pilot program in district 1, 2, and 4 for you do not represent us (district 3).

Again, on a personal note: Please take our environment into consideration when you make decisions, so we can leave a live-able place for our future generations. Industrial agriculture (mass production) hurts our environment and creates dramatic climate change. We've just witnessed and experienced the mega fire in California. Even this pandemic-COVID19 has something to do with the un-naturally raised and mass produced animal products. Our environment should not be a profit trade off. Thank you.

Sincerely,
Jessica & Ben Harness
