Subject: Re: Jan 27 Workshop ... from Web

Re: Jan 27 Workshop Public Comment
Dear Members of the Board of Supervisors,

I'm writing to request that consideration be given to allow Manufacturing (non-volatile) in AG zoning districts. Most properties in AG are perfectly suited for this type of manufacturing (extraction using only ice water or low heat and pressure). I agree that the volatile solvent extractions should be in industrial zoning.

Thank you for your time and consideration.

Sherry Byrd
