

Local. Renewable. Ours.

*Now Serving Mendocino County!*

# Introducing Your New Electricity Provider

Mendocino County Board of Supervisors  
March 21, 2017

# New Clean Electricity Provider

- New kind of public agency (public/private)
- Created by public demand in response to the 2000 energy crisis
- Adds choice, competition, and local control to our power market
- Self funded - No tax dollars

## Community Choice Aggregation (CCA)

CCA allows communities to buy and build electric generation to serve local residents, businesses, and municipalities.

### **CCAs Legal in 7 States**

- California
- Illinois
- Massachusetts
- New Jersey
- Ohio
- Rhode Island
- New York

### **Under Consideration**

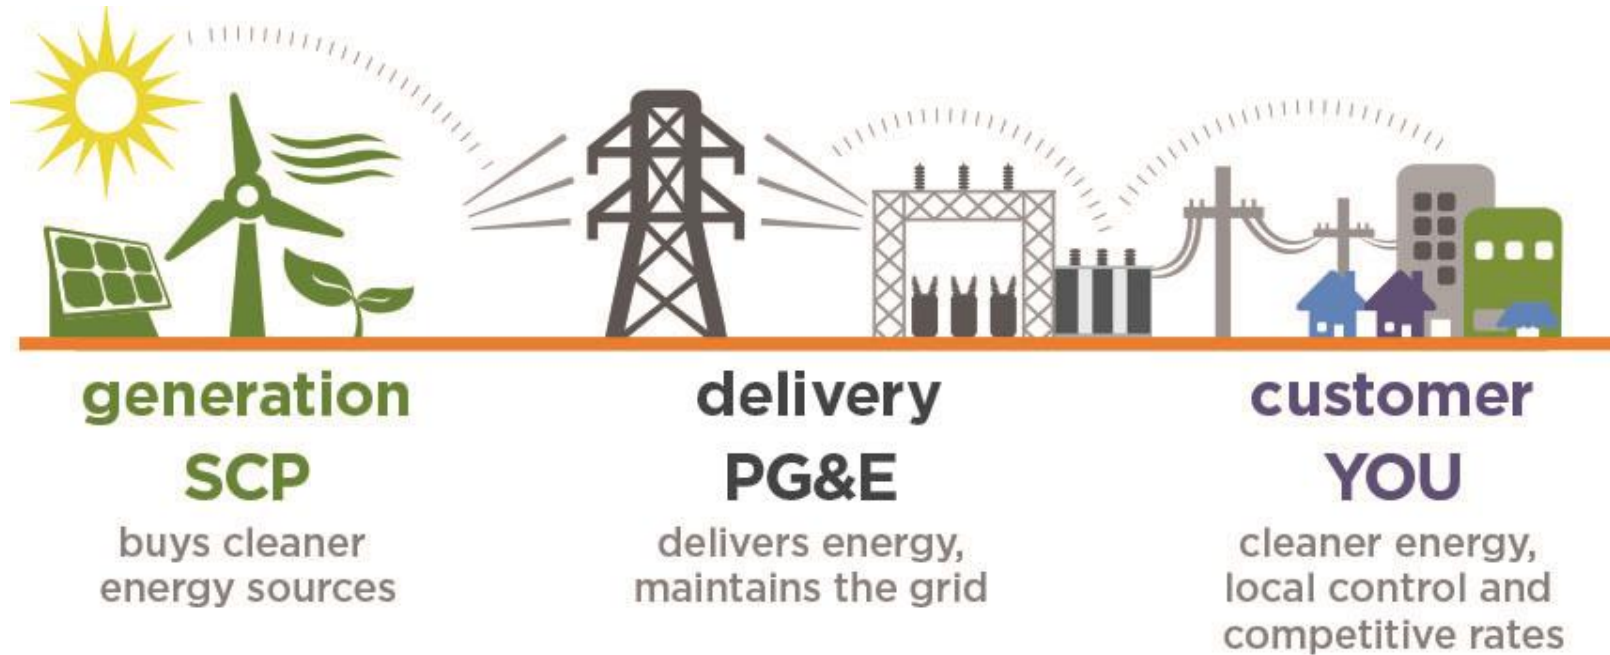

- Utah, Delaware, & Minnesota

### **Operating CCAs in California**

- Sonoma Clean Power
- MCE Clean Energy
- Lancaster Choice Energy
- CleanPowerSF
- Peninsula Clean Energy
- Silicon Valley Clean Energy
- Apple Valley Choice Energy
- Redwood Coast Energy Authority

## How Community Choice Works

# Service Territory

Mendocino County (excluding Ukiah\*)

Sonoma County (excluding Healdsburg\*)

\*operates under a municipally run electricity system

## Changes to Your Account

- On your June meter read date you will be automatically enrolled in SCP CleanStart service unless you choose to opt out or opt up to SCP's EverGreen service.
- This does not terminate your account with PG&E. You will now receive electric generation from SCP and continue to receive electric delivery from PG&E.
- Your PG&E bill will now include SCP's Electric Generation charges and PG&E's Generation Credit (what you would have paid PG&E for electric generation).

## Changes to Your Account Cont'd...

- PG&E discounts like CARE, FERA, and Medical Baseline will continue, there is no need to re-apply.
- If you are solar, switching to SCP will trigger a True-Up with PG&E. Please call us or come to one of our NEM presentations to learn more.

## How Does this Affect PG&E Priority?

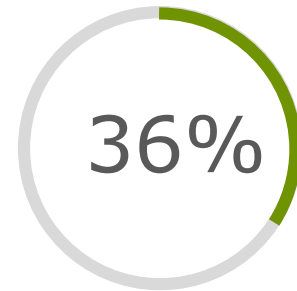

- It doesn't!
- Being an SCP customer will not affect PG&E priority in terms of maintenance, power outages, storm response, etc.
- As a shared customer of SCP and PG&E, you can expect the same reliability you've been use to.
- PG&E maintains the grid through your Electric Delivery charges, which do not change when you become a customer of SCP.

## Enrollment Schedule

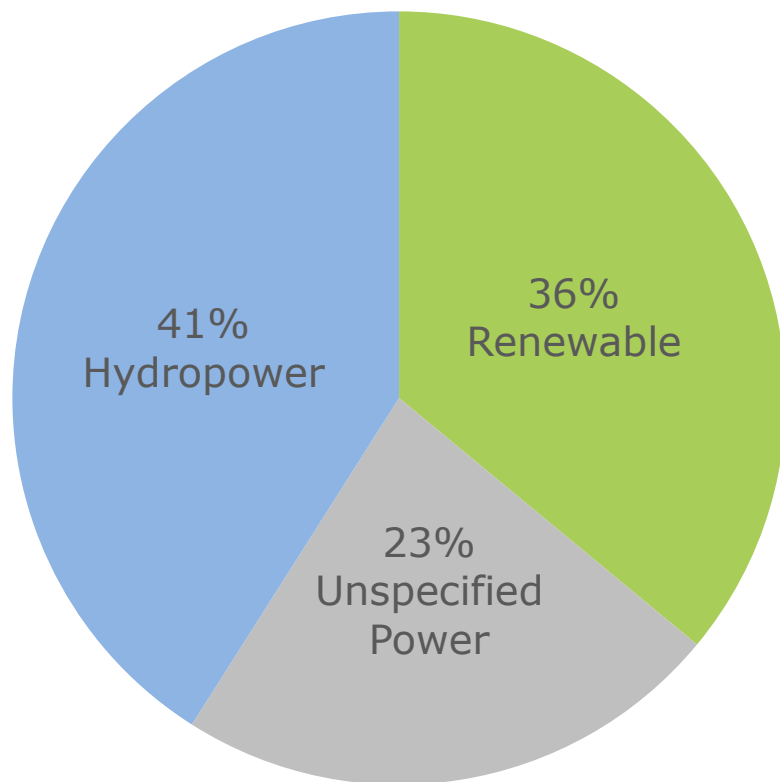

Item	Timeframe
Enrollment Notice #1	Early April
Individual Letters for Solar, Balanced Payment Plan & SmartRate Customers	Early April
Enrollment Notice #2	Early May
Enrollment Notice #3	Early June
<b>SCP Service Begins</b>	<b>June Meter Read</b>
Enrollment Notice #4	Early July
Final Enrollment #5	Early August

# CleanStart

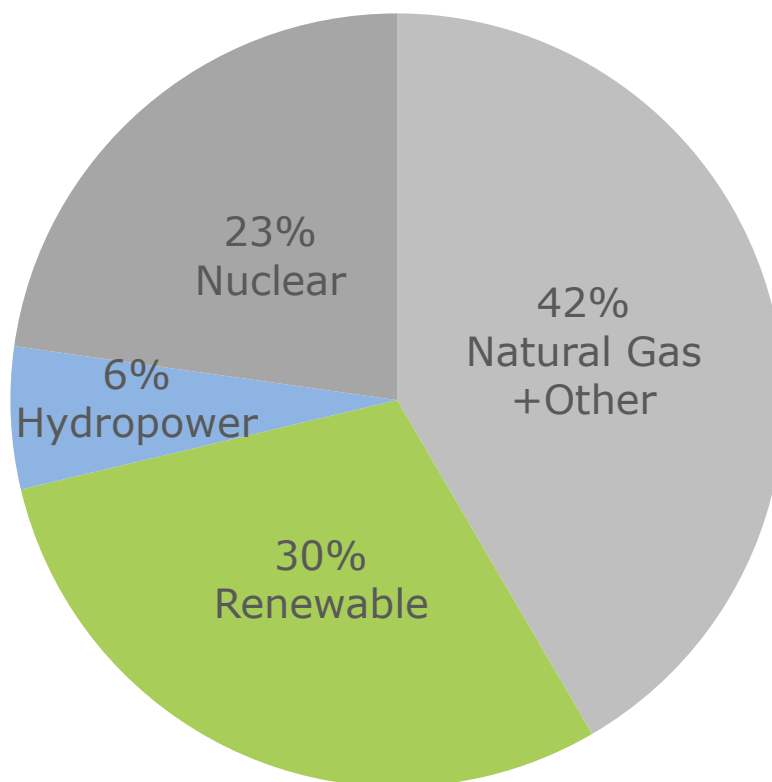

- 36% renewable power
- Default service – designed for maximum participation
- Competitive rates — ~1% lower than PG&E on total electric bill (March 2017)
- Available to everyone
- 48% lower greenhouse gas emissions compared to PG&E

# Power Sources

 CleanStart

PG&E

# EverGreen

100%

- 100% local, 100% renewable power
- Premium of 2.5¢/kWh (about 11% or about \$13 per month than CleanStart for the average residential customer)
- Optional program available to residential and commercial customers
- Can sign up now – begin to receive service in June

Local. Renewable. Ours.

# Keeping it Simple

Still receive just one bill from PG&E

## For Solar Customers: Net Energy Metering

- Excess electricity generated is credited at the retail value plus \$0.01/kWh.
- Credits are banked to help cover any SCP generation charges throughout the year.
- Automatic, annual cash-out occurs for any unused credits if the balance exceeds \$100, up to \$5,000 (in May).
- Since 2015, SCP has paid nearly 1,600 customers over \$890,000 for generating local renewable energy.

## Summary of Benefits with SCP

- Choice
- Cleaner Electricity
- Lower Greenhouse Gas Emissions
- Competitive Rates
- Local Control

*We look forward to serving Mendocino County!*

# Your Choice for Cleaner Energy

Sonoma Clean Power is Mendocino's new local electricity provider.

## CleanStart

Cut your power bill and start using cleaner sources of electricity with our default service.
