Subject: Drying sheds for cannabis

EXECUTIVE OFFICE

PER _____
UKIAH, CALIFORNIA

Board of Supervisors Mendocino County
Honorable Board Members

I phoned the planning and building department yesterday, and I was told that metal buildings were accepted as ag.exempt. I did not hear metal buildings mentioned at the meeting today. We dry in 2 metal buildings under 2000 square feet. They have wood floors. I am concerned that our buildings will not be accepted. Also I don't think the metal buildings would require the ground clearance since the joists are metal. Thank you for addressing this.

Respectfully,
Marie Myers
