Consent Agenda <input type="checkbox"/> Regular Agenda <input checked="" type="checkbox"/> Noticed Public Hearing <input type="checkbox"/>	

Summary:

Update the development of a Technical Advisory Committee (TAC) Memorandum of Understanding (MOU) between the Agency, the Mendocino County Resource Conservation District, Sonoma County Water Agency and the California Land Stewardship Institute.

Recommended Action:

Accept update on the development of a TAC MOU between the Agency, the Mendocino County Resource Conservation District, Sonoma County Water Agency and the California Land Stewardship Institute.

Background:

During the Ukiah Valley Basin Sustainable Groundwater Management Act Implementation Formation Committee process the group discussed the creation of a TAC MOU. At the January 2017 meeting, a working group (Tamara Alaniz, Jay Jasperse, Don Seymour, Patricia Hickey, and Sarah Dukett) was convened to draft an MOU between the GSA and the members of the Technical Advisory Committee members who are not representing GSA Directors (the Mendocino County Resource Conservation District and Sonoma County Water Agency). At the February meeting, the working group had agreed to submit a draft MOU framework to the Formation Committee for consideration. At the March meeting, the formation committee discussed the framework and provided feedback.

On July 13, 2017, the Board of Director approved adding the California Land Stewardship Institute to the Technical Advisory Committee. On August 10, 2017, the Board directed to bring back an item to discuss the development of the TAC MOU.
