R.E. Action item vote to approve Agenda item 5C

Dear Ms. Angelo, Board of Supervisors, County Counsel, Planning and Building.. The Mendocino County Blacktail Association **opposes a yes vote on 5C** and has great concern over the intended direction of the Board to move forward with the Item 5C. This is entering an uncharted and unstudied environmental pathway of expanding commercial cannabis enterprises into resource lands i.e. Timber and range. I would like to remind the Board and County Counsel that this is a violation of the original agreement of the ordinance regarding CEQA, with MCBA and without a complete EIR of this action ITEM 5C, this will result in a challenge to the ordinance and Item 5C again. We would ask the Board to table this item until sufficient Meetings that accommodate working people's schedules and with the concerned public in attendance to respond to this move be achieved.

Respectfully

Paul Trouette
President Mendocino County Black tail Association
