Subject: Please vote Yes on item 6C

Supervisors,

It is essential for you to support and vote yes on Item 6C today, an Amnesty Transition Pathway. The economic survival of our small communities depend on an easier transition model. As rural residents we simply do not have to services that would allow for easy compliance to the strict commercial codes we are being held to. Relaxing county rules, a reduction in fees for residents and petitioning the state for relief would enable most of us to achieve compliance and preserve out communities. Without a path to compliance for the majority our local businesses will close and our taxbase along with our schools will further deteriorate.

Thank you for your consideration

Patrice Byarlay
