

Dear Board of Supervisors,

This Wednesday, 4/15/20, the state fish and wildlife agency is meeting to decide on pending delays on openers, restrictions, or closing fishing seasons. They will be leaving it up to our local governments to decide on our strategy and input. We ask you to please consider restricting our local fishing seasons to local Mendocino County residents only as Oregon State has done. The sea is our grocery store to healthful wild caught fish that sustains us through out the year. We urge you to protect our local rights to fish and let California Fish and Wildlife know you are with us on this extremely important issue.

Sincerely,
LeRoy and Kathy Perry
