

Hello,

My name is Katie Link. I am a resident of Willits and live on Old Boy Scout Road on Pine Mountain.

I have just learned of the intention to put a new cell tower here with capabilities of 5G. I would like the opportunity to be present at the public hearing to discuss this matter. I see the hearing is scheduled for the 16th.

Clearly we are all still under quarantine orders and will not be able to attend.

I am requesting that the public hearing for case U-2019-0011 be postponed until the public is actually able to truly be involved. This is an important matter that deserves discussion, especially involving the people who live near the proposed site.

I see that you have encouraged the public to join the meeting online. That is somewhat thoughtful, but unrealistic. The people that live here and have invested everything they have into creating a peaceful life in the hills... countless years and dollars... are not always the type of people who are internet savvy. It is important that this public hearing is able to be attended by the public in person.

Please consider the community of Willits, the ones who have chosen to live here...for sometimes generations, and let us be heard.

Thank you for your fair consideration on this issue.

Katie Link
