

I fully support extending Dr Doohan's contract and I see no reason whatsoever why she can't work remotely, (as have the County Supervisors and other key county personnel since the pandemic response began here locally).

I have listened to every BOS meeting (for years) and each of Dr. Doohan's interviews and reports. I find Dr. Doohan to be highly competent and forthcoming with knowledgeable information, in her vital work to protect the health of this county's residents

I urge the County Supervisors to extended Dr. Doohan's contract by a unanimous vote.
