

I am vehemently against her contract being renewed, and absolutely against any raise.

She ordered us to shelter in place. Yet she can drive off to San Diego.

She did NOT self-quarantine for 14 days. Now she drives back here, and again - isn't self quarantining for 14 days.

I have no faith in a "leader" who does not lead by example.

Do NOT extend her contract. Do not give her a raise. Use it instead, to help out the hourly workers who have been devastated by a loss of income.

Debbie Jones
